SYNOPSIS.

THE CITY. Sensational turn in affairs of Harness Horse Association. Secretary A. A. C. Brown retiring. Sordid contest expected for W.C.T.U. State presidency. Dog catcher busy. Old licenses no good now. Flattering ovation accorded "Lark Ellen" Yaw, wonderful singer. Getting into closer touch on city-county consolidation. Convention invited. President of San Antonio county ranches sold. Death of a woman. Reported preparing to advertise river-bed franchises for sale. Explain Navy position, but not promised. High school football team defeats Santa Paula. Full-tax man garnishes warrants of 1500 city employees. Bundy and Gorman defeat Brady and Wayne at tennis. Blow that would crack cobblestone only held back. Chinese banquet a study in food. "Pete" Lohman committed to Highland. Florence Poles annoyed by neighbors. District Attorney takes hold. Mrs. Conroy meets former maid wearing daughter's gown. L.A.A.C. handball beaten. Clara Jones been committed suicide to "fool his wife."

SOUTHERN CALIFORNIA. See page 3, part I.

PACIFIC SLOPE. Gov. Pardee issues a proclamation containing the programme which will come before the Legislature at Sacramento for enactment. Gen. A. W. Greely suggests that barracks be built on San Francisco property for the refugees. Habituals with a common cook house, and that a small rental be charged for the accommodations. Some of the insurance companies will not permit repairs to be made on steel structures which were partially destroyed in San Francisco until the steel has been replaced, and considerable loss of time will result to the owners. A gang of nihilists has been discovered in Portland, which has selected one of its number to assassinate the President. It is reported that serious riots occurred at Cananea, in which forty-five Americans were killed in an assault on the Green copper mines by Mexicans, and the town is said to have been set on fire.

GENERAL EASTERN. Associate Justice Brown at a dinner attended by the President and officials of the government. The President's remarks are deplorably feeble and ineffectual. The Lake Mohonk international arbitration conference adopted resolutions petitioning the President to instruct delegates to the Hague peace conference to urge measures for the peace of the world. The delegates at the Indiana Democratic Convention were in nearly all cases been instructed to declare in favor of Bryan for President. Dr. Louis A. Weigel as the result of scientific investigation with the X-rays, having contracted a cancer on his continued use of a five-year-old child at Monterey, Ala., is burned at the stake by his playmates, who are emulating the example of recent atrocities mentioned in the newspapers. The Cuernavaca bill, offered by Needham, is not expected to pass the House, as Speaker Cannon has set his seal of disapproval on it. The suicide of Congressman Adams proves a shock to his colleagues, and the House of Representatives adjourns on hearing the news. Stated bill in its present form is to suit Senator Foraker, but it is thought a compromise may be effected whereby the measure will pass at this session. The Committee on Privileges and Elections has decided that Reed not be entitled to a seat in the Senate, and will so recommend.

FOREIGN. A priest, who is a member of the Russian Parliament, notified the Czar that he is standing over Mexico, which soon will erupt into proper legislation is effected for the benefit of the masses. Trouble is being over Russia, and the situation is becoming more serious each day. A German newspaper in Yonkers declares that Japan is getting ready for a war with China in order to avenge her for the losses sustained in the Russian conflict. J. Laurence

DISEASED CATTLE.

Lumpy Jaw Steers Are Eaten.

Chicago Inspectors Pass for Food Animals With Affected Livers.

Beef Is Sold to Retailers and Goes Into the Regular Consumption.

The President Will Make Public the Report of His Investigators.

(BY DIRECT WIRE TO THE TIMES.)

NEW YORK, June 1.—[Exclusive Dispatch.] The Nall-Reynolds report condemns canned meat.

Dressed beef is all right; it is properly inspected before slaughter, is properly killed and cooled, and 75 per cent. of it has proper post mortem inspections. No complaint can be made.

No fault is found with dressed pork or dressed mutton. Objection is found to the so-called by-products, such as sausages, hogs' headcheese, tinned meats of certain kinds, puddings, etc. These are improperly prepared, are unwholesome, are preserved and colored.

Condemnation is made of sanitary arrangements, of the manner in which vats are left open, of the collection of filth and of the dirty clothes worn by employees in the preparation of minor articles of food.

CHICAGO, June 1.—[Exclusive Dispatch.] The carcasses of sixteen lumpy jaw cattle in which the liver was found to be affected, were passed today by the government, State and city inspectors at the weekly slaughter which took place at the plant of the Standard Slaughterhouse Company.

This meat will be sold for disposition to the local trade tomorrow and as soon as possible thereafter will be delivered to various butcher shops throughout the city and cut up and retailed to the users of meat.

Five livers found affected in the fifteen other animals were condemned and tanned but the carcasses themselves were passed.

ST. LOUIS TO ACT.

ST. LOUIS, June 1.—[Exclusive Dispatch.] To protect St. Louis meat eaters from diseased, tainted and immature meat such as recent revelations have shown to be a staple on the market, Health Commissioner Bond is preparing an ordinance providing for strict and effective meat inspection.

The public he declared is now without proper protection.

CONGRESS TO GET REPORT.

(BY THE ASSOCIATED PRESS.—P.M.)

WASHINGTON, June 1.—The President decided today to make public the report of Prof. Charles P. Nell, Commissioner of Labor, and James B. Reynolds of New York, concerning the condition of the meat packing establishments as they found them on an inquiry instituted by the President, primarily for his own information.

The report of Commissioner Nell and Mr. Reynolds will be sent to Congress next Monday. It will be accompanied by a special message from the President in which he will take strong ground in favor of immediate and drastic legislation to correct the evils which are exposed in the report.

NEW YORK PLACES CLEAN.

(BY THE ASSOCIATED PRESS.—A.M.)

NEW YORK, June 1.—Dr. Thomas Dartington, president of the New York City Board of Health yesterday began an inspection of the slaughtering, canning and packing-houses which come within his jurisdiction. Tonight he said:

"I visited fourteen slaughtering houses today and I met that, far from being in any special unsanitary condition I found these places very satisfactorily conducted. Of course, there were some few little flaws in isolated cases but I found no general unsanitary conditions."

EXPORTED MEAT INSPECTED.

(BY THE ASSOCIATED PRESS.—P.M.)

LIVERPOOL, June 1.—At a meeting yesterday of the municipal health board it was stated that samples of Chicago and other American canned meats have been submitted weekly for bacteriological examination with the result that no ground for apprehension had been discovered. The opinion was expressed that what is deleterious is kept for American consumption.

INQUIRY TO BE ASKED FOR.

(BY DIRECT WIRE TO THE TIMES.)

KANSAS CITY, June 1.—[Exclusive Dispatch.] Because the cattle market

has shown a decrease in prices ranging from 15 to 25 per cent. during the past week, owing to the exposures concerning packing-house methods, the Kansas City Live Stock Exchange has suggested to the Commercial Club that a committee made up of representatives of the two organizations be appointed to thoroughly investigate the Kansas City packing-houses and report fully on the conditions found therein.

"The whole country is criticizing the packing-houses and their methods," says Frank C. Robinson, president of the Live Stock Exchange. "We should know if these criticisms apply to the Kansas City plants. A great injury is being done the livestock interest of the West."

The investigation will be made if the packing-houses will submit.

ENGLAND STIRRED UP.

(BY DIRECT WIRE TO THE TIMES.)

LONDON, June 1.—[Exclusive Dispatch.] The Australian tinneed meat business in England is suffering from disclosures in America. The firm interested in it are making strenuous efforts through their managers to prove that the inspection in Australia is so thorough that it is impossible for food that is unfit for use to leave the country.

At a meeting of the City Corporation the question was asked what steps the Sanitary Committee proposes to take to prevent the importation of American meat. The reply was that the medical officer of health had two months ago drawn attention to the matter, and that the committee was communicating with the United States to ascertain what system of inspection was in operation there.

ROMANCE ENDS IN WEDDING.

Robert McNair Met Miss Mary E. Bartlett in Refugee Camp and Fell in Love.

(BY DIRECT WIRE TO THE TIMES.)

CLEVELAND, June 1.—[Exclusive Dispatch.] Robert McNair of Crawford, Neb., and Miss Mary E. Bartlett, very pretty young woman, of Los Angeles, were married here yesterday, the marriage being the culmination of a beautiful romance.

The couple were in San Francisco at the time of the earthquake and McNair was very attentive to Miss Bartlett in the refugee camps, where they were quartered. During the rainy days and cold nights McNair's coats were wrapped about Miss Bartlett, while he shivered in his shirt sleeves.

It was a case of love at first sight and before Miss Bartlett left San Francisco for her home in Los Angeles she had promised McNair to become his bride.

SUBWAY LIKE AN INFERNO.

Trainload of Passengers in Panic When Four Cars Are Destroyed by Fire.

(BY THE ASSOCIATED PRESS.—P.M.)

NEW YORK, June 1.—A collision in the subway, tonight between trains of empty cars, a short circuit was caused, which resulted in the burning of four cars, a panic in a train crowded with passengers and the suspension of traffic from Ninety-third street to the Kingsbridge terminus for several hours.

The accident occurred just below the One Hundred and Tenth-street station on the Broadway line.

A north-bound passenger train ran the gamut of the flaming cars and reached the One Hundred and Tenth-street station, where the passengers, panic-stricken in the darkness and smoke, had the utmost difficulty in reaching the street.

Several women fainted, but all escaped unhurt. In consequence of the dense smoke hours elapsed before the firemen could enter the subway and extinguish the flames.

BUCH WEDDING AFTERMATH.

Some One Steals Page from Hotel Register Where Lieut. Scharrer Wrote Name.

(BY DIRECT WIRE TO THE TIMES.)

ST. LOUIS, June 1.—[Exclusive Dispatch.] The discovery was made today that the page of the Belleville House register on which Lieut. Edward Scharrer registered Miss Wilhelm Buch, now his wife, and himself as "Mr. and Mrs. Scharrer, St. Louis," when they visited Belleville several months ago, has been stolen.

The absence of the page containing the famous signature was first noticed when the clerk searched the register to show the signature to Ernest Cox, a traveling man from Chicago, who had asked to see it. The page and the signature have been viewed by thousands of visitors since the newspapers told of the eventful visit and its subsequent developments, and it is presumed some relic hunter removed it to add to his collection.

EX-SENATOR HILL EXONERATED.

ALBANY (N. Y.) June 1.—The State Bar Association's committee appointed to investigate David B. Hill's connection with the Equitable Life Assurance Society today reported that Mr. Hill's connection with the company had been found entirely proper.

STRIKER TRIES TO RUIN ENGINE.

(BY DIRECT WIRE TO THE TIMES.)

LAS VEGAS (N. M.) June 1.—[Exclusive Dispatch.] James King, who was formerly employed in the shops here, today pleaded guilty to putting emery in the eccentric cups of a Santa Fe engine, which was about to leave for a trip. He has been in jail several months.

It is believed that King's act was the result of a plot, and Santa Fe officers have been straining every nerve to secure his supposed confederates. He was a striker.

AMERICANS KILLED IN MEXICAN RACE WAR.

Town of Cananea on Fire, Dead and Wounded Strew Its Streets.

Riot Follows Strike at Greene Mines and Dynamite Is Used on Houses of United States Subjects—Arizona Rangers Hurry to Scene and Washington Is Asked for Protection—Fighting Still Continues.

(BY DIRECT WIRE TO THE TIMES.)

NEW ORLEANS, June 1.—The Picayune's special from Bisbee, Ariz., says:

"News has reached here from Cananea, Mex., of a bloody race war at that place. The town is on fire and streets are strewn with dead and wounded."

"The Arizona Rangers and a large posse of citizens of Bisbee have just left Bisbee for Cananea."

"At last accounts the fighting still continues."

NACO (Ariz.) June 1.—[Exclusive Dispatch.] E. E. Edgington, principal of the American schools at Cananea, arrived here tonight on the special train that brought refugees from the inflamed city. Edgington tells a graphic story of the rioting there. He said:

"George Metcalf, head of the development department of the Cananea Consolidated Copper Company, and Will Metcalf are the only Americans who have been killed, as far as I could learn. They were shot down by Mexicans while protecting company property. Between twenty-five and fifty Mexicans have been killed in the fighting."

"The large lumber yard of the company has been destroyed, causing a loss of not less than \$250,000. It was completely burned this afternoon, the torch being applied by rioters. They were barricading the home of Col. Greene when I left. It is feared that the homes of all Americans will be dynamited. As fast as possible, the women and children are being rushed out of the camp on special trains."

"Every American is being armed. They are gathering at the home of Col. Greene and in the Presbyterian Church, determined to take the stand to protect their lives and property."

DYNAMITE PAWNSHOP.

"This afternoon, revolutionists dynamited the pawnshop in Cananea and secured a large number of guns; from this, I judge they are now well supplied, having enough arms to put up a terrible fight against soldiers or Americans."

"The Mexicans attacked the mounted police this afternoon, fighting a battle which resulted in the death of a large number of them. General Manager A. S. Dwight was injured by a bullet, receiving a scalp wound that is not serious."

"Five thousand Mexicans are out on strike. They are very defiant, marching the streets and awaiting the appearance of only an anarchist flag to attack every Mexican and American in Cananea who do not join them. They are making threats that they will destroy the entire camp and exterminate every American in it."

"There are between twenty and seventy-five police and half of them are siding with the rioters. Some of them are standing by the Americans, but it is feared that they will not long remain with them if they see that the Mexicans are getting the upper hand."

FORTY-FIVE AMERICANS KILLED.

(BY THE ASSOCIATED PRESS.—P.M.)

NACO (Ariz.) June 1.—Forty-five Americans were killed at Cananea, Mex., forty miles south of here, where is located the great copper camp of Col. W. C. Greene.

The camp is on fire and it is understood the Mexicans are defying all authority.

The rioters are reported to be using dynamite in blowing up the great smelters and mills owned by the Greene company.

The trouble arose at Cananea over the demand of the Mexicans for an increase in wages from \$3.50 to \$5 per day.

Parties who left there at 1:30 this afternoon said that Col. Greene was addressing practically the entire population of the camp in an effort to pacify the excited Mexicans. However, between 4 and 5 o'clock this afternoon the Mexicans opened fire on the Americans and forty or more were killed.

Col. Greene wired at once to Bisbee for all the armed men that could be

ARMED AMERICANS AMBUSHED OVER LINE.

(BY DIRECT WIRE TO THE TIMES.)

BISBEE (Ariz.) June 2.—[Exclusive Dispatch.] The following has just been received from Naco:

Thirty armed men who came here from Bisbee to go to Cananea to assist in the fight, were ambushed about 11:30 o'clock last night, near the railroad depot, about four hundred yards across the Mexican border.

It is known that at least a dozen Americans have been killed and fully fifty Mexicans.

Two trains loaded with refugees are now en route here from Cananea and will go to Bisbee.

Gov. Yeabell of Sonora is hurrying here from Hermosillo, the capital of the State, and will be met there by the Bisbee forces, which will accompany him to Cananea.

George Metcalf, who was in charge of the large lumber business of the Greene Company was one of the first men to be killed. The Mexican laborers had been gathering in a great crowd during the forenoon and this afternoon about one hundred and fifty of them started from the vicinity of the Sonora Hotel, toward the lumber yard. On the way they stopped at a livery stable and tried to persuade the Mexicans at work to join them but they refused and when the proprietor told them the stable was individual property and not connected with the mining property they left.

At the lumber yard, a large fire hose was brought out and as the crowd approached the water was thrown on them. At the same time Metcalf advanced on the crowd with a rifle. The Mexicans closed in on him, took the gun from his hands and beat him to death with it.

William Metcalf, a nephew, rushed to the rescue of his uncle when he was shot by a Mexican. Three Mexicans were killed at the lumber yards.

WEDDED LIFE IS JOY—NICHOLAS.

"GET MARRIED," IS ADVICE OF OHIO CONGRESSMAN.

President's Son-in-Law Says He Never Knew Real Happiness Until He Became a Benedict—His Better Half Adds Harmonious Sentiment, Asserting Marriage Is a Success.

(BY DIRECT WIRE TO THE TIMES.)

NEW YORK, June 1.—[Exclusive Dispatch.] "Get married, it's the only life. I have never known what real happiness meant until now and the best part of it all is that I got happier all the time."

This is the way Nicholas Longworth expressed himself tonight just after he and Mrs. Longworth arrived in Jersey city from Washington. Mrs. Cornelius Vanderbilt met them.

"Yes, every man is better and happier after he is married," said Mr. Longworth. "He doesn't begin to know his responsibilities until he is married, but not that I have such a lot of them. There is incentive in feeling that I have settled the most important event in my life for all time."

Mrs. Longworth refused to discuss at length the matrimonial problem, but said: "I am perfectly happy and neither of us feels that we have made a mistake. Mr. Longworth will have to tell you about it. I defer to him in everything."

Mrs. Longworth never looked better. She has a fine bright color that comes of plenty of out-door life. She was dressed smartly in a white and black moiré dress, made princess with a jacket of the same, which was piped with black silk.

Mr. and Mrs. Longworth are taking twelve large trunks and innumerable pieces of hand baggage. Mrs. Longworth's maid will accompany them.

NOT LIKE IN NEW YORK.

In Russian Case, Insurance Companies Are Robbed by Revolutionists Armed With Rifles.

(BY THE ASSOCIATED PRESS.—P.M.)

RIGA, June 1.—A band of revolutionists, armed with Mauser rifles, today robbed the headquarters of an insurance company here, and killed two clerks and wounded a policeman. In their flight, they were cornered in a store and their leader was killed.

RACIAL WAR RECOMMENCES.

(BY THE ASSOCIATED PRESS.—P.M.)

ELIZABETHPOL, June 1.—Racial warfare between the Armenians and Tartars has recommenced. Several Armenians have been killed in the district of Djivanashaki. The fate of eighteen of the Tartars who were taken prisoners by the Armenians is not known.

HELEN GOULD GOES ABROAD.

Sails on the Deutschland to Visit Her Sister, the Comtesse de Castellane.

(BY DIRECT WIRE TO THE TIMES.)

TARRYTOWN (N. Y.) June 1.—[Exclusive Dispatch.] Miss Helen Gould and party of seven sailed on the Deutschland from New York yesterday.

So quietly did Miss Gould get away that the fact did not become known until today.

With her were her cousins, Miss Anna Pallen and Miss Estelle Champin, Miss Virginia Tucker, a friend, Miss Ida Coots, Mrs. Lipman, Miss Jule Lipman, who will act as secretary; Dr. Harry Keator of New York, and a maid.

Miss Gould is going to Paris to see her sister, Comtesse de Castellane.

MUTINY ON FRENCH BOAT.

LONDON, June 1.—[Exclusive Dispatch.] A dispatch to the Exchange Telegraph Company from Toulon says that a serious mutiny broke out on board the French torpedo boat No. 256 while she was cruising off the island of Corsica. Two sailors revolted and the majority of the crew joined them. The mutineers were disarmed and taken aboard the cruiser Jallabard. She brought them to Toulon, where they are now in prison.

LONGWORTHS SAIL TODAY.

NEW YORK, June 1.—[Exclusive Dispatch.] Mr. and Mrs. Nicholas Longworth arrived in New York today at 4 o'clock, having come from Washington to sail tomorrow morning on the St. Louis for a two months' visit in Europe. They were the guests of Mr. and Mrs. Cornelius Vanderbilt tonight. Mr. Vanderbilt gave a box party at the New York Theater where "His Honor, the Mayor," is being presented.

NEW LAWS FRAMED.

Gov. Pardee Issues Proclamation.

Gives Programme of Changes and Additions to Meet the Emergency.

Nearly All Relate to Unusual Situation Evolved from the Fire.

The Interests of Los Angeles County Entirely Ignored in the Call.

(BY THE ASSOCIATED PRESS.—P.M.)

SACRAMENTO, June 1.—Scarcely a dozen members of the Legislature were in this city prior to the arrival of the evening train from San Francisco. By 8 o'clock, however, members of both houses were in evidence in the hotel lobbies and about the Governor's office at the Capitol.

Senators and Assemblymen from Southern California were the first outside Representatives on the ground, although hotel accommodations had been engaged previously for members from all parts of the State.

It was stated this evening that the Governor's call for the special session of the Legislature had been practically completed at the hour of his departure from San Francisco this morning, but the document was not issued until this evening, and with a brief interruption for dinner, Gov. Pardee, assisted by Judge W. S. Wells of Martinez, and his secretaries, has been engaged in revision of the text. The afternoon had been devoted to the elimination of matter deemed superfluous.

ISSUES PROCLAMATION.

Gov. Pardee tonight issued the following proclamation:

STATE OF CALIFORNIA, Executive Department.—Whereas, by reason of the great conflagration and public calamity, extraordinary occasion has arisen and exists requiring the Legislature of the State of California to convene.

Now, therefore, I, George C. Pardee, Governor of the State of California, by virtue of the power and authority in me vested by section 9, of Article V, of the constitution of the State of California, do hereby convene the Legislature to meet and assemble in extraordinary session at Sacramento, Cal., in the State Capitol on Saturday, the second day of June, Anno Domini one thousand nine hundred and six, at 12 o'clock meridian of that day, for the purpose of enacting laws and proposing constitutional amendments upon the following subjects, to wit:

(1.) To enact a law providing that where holidays have been declared by the Governor for more than thirty days, all legal or official acts or publications done or made on any such holiday or holidays shall be deemed and held as valid as if done, performed or made on a day or days other than such holiday or holidays.

(2.) To enact laws with reference to the restoration, retaining, reproduction, substitution, evidence or proof of court records, files, and papers lost, injured or destroyed by conflagration or other public calamity, and also to enact legislation for the restoration, reinsurance, reproduction, substitution, evidence or proof of instruments, documents and records, public or private in like manner, lost, destroyed or injured, affecting the ownership of, or interest in property, or affecting any other rights, public or private, evidenced by such documents, and for determining, establishing and quieting title thereto or to the property or rights evidenced thereby; and providing for the disposition of cases in which the record or any part thereof has been lost or destroyed; also for establishing or quieting title to real or personal property.

(3.) To appropriate money and to make provision for the construction, erection, reconstruction, repair, and restoration of buildings, structures and property of the State of California damaged, injured, lost, or destroyed by conflagration or other public calamity and also to provide for their protection against fire.

(4.) To appropriate money for the use of State institutions, courts, commissions, boards and officers, and the University of California and its affiliated colleges, and to provide for deficiencies in the funds of said State institutions, courts, commissions, boards and officers, and the University of California and its affiliated colleges.

(5.) To provide for the pay, expenses, subsistence and transportation of the National Guard of California and the university cadets during the months of April, May, and June, 1906.

(6.) To amend section 1238 of the Code of Civil Procedure by adding thereto a new subdivision which shall provide only that plants of title in

(Continued on Twelfth Page.)

Atti colony of the grapes this year at least. They may be predictions of

OVATION TO "LARK ELLEN."

Overflowing House Greeted the Wonderful Yaw.

Los Angeles Girl Has Risen to Heights of Art.

Brilliant Performance and Great Enthusiasm.

Seldom has any musician been accorded so flattering a reception in Los Angeles as Miss Ellen Beach Yaw, at her reappearance at the Mason Grandhouse last night after two years of European triumph.

The entire theater was filled with her friends—and her friends in Southern California are the art-appreciating public. Society was well represented in the boxes and in the orchestra. A general audience of music-lovers filled the dress circle, and about them all, in the foyer or in the promenade at the back of the theater, strolled late comers who could not get seats, but who were bound to hear at any hazard.

But the tribute was not merely perfunctory. It was a deserved testimonial for the Ellen Beach Yaw of today has risen to the heights of high art, and has left the unproductive fields of virtuosity.

Her first number was Mozart's "Il Pastore," which she sang with beautiful expression and a brilliant mastery of coloratura.

A characteristic opening incident showed her poise. When she came upon the stage even the audience noted the draught that swept out from the wings. Her accompanists were ready to begin playing, and had even tuned their first notes, but very quickly the young prima donna motioned them to silence, and stepped demurely behind the scenes. An instant later she came back—and the thought had stopped.

Miss Yaw progressed through the rest of her programme, "warm" her voice by degrees, its high, best quality and wonderful training and out in extraordinary brilliancy. She has gained a great deal in modulation of her tones. The talented little girl of yesterday could sing away into the clouds—but of delicate effects in mezzo voice, and the shading of sentiment and expression upon a single note, she knew but little. Last night, however, her very best efforts were not the triumphs of sensationalism, but the pure, beautiful results of art directed, intelligently applied.

If you want to get an idea of the size of Ellen Beach Yaw today, think of the voice of Emma Eames. Miss Yaw's tones are remarkably similar to the great operatic singer's in many respects. They have practically the same timbre, the same expression, however, the California girl excels the prima donna in brilliance and mobility of voice, and performs phenomenal feats which Miss Eames could not dare to undertake.

The numbers passed on last night the stage became a conservatory. In lines passed up baskets, bouquets and clusters of heart-colored bloom, until assistance was needed to carry the surplus of beauty off the stage. A row of dainty baskets heaped with rich flowers, lined the front of the proscenium. The top of the big grand piano was hidden in a mountain of red bloom carefully heaped upon it.

Three dainty little numbers concluded the first part of Miss Yaw's programme. They were "Marquise," "Dell Aquila," "Villanelle," and "Auber's 'Eclair de Rire.'" The latter, a strutting little bit of imperiousness, was as delightfully laughable as Miss Yaw's flexible lips as was "Auber's" well-remembered "Kinderlieder" on the sturdy tongue of magnificent Johanna Gadski.

The second part began with the crucial number of the whole series—the grand scene from "Lucia."

This excerpt from one of the most brilliant soprano parts in the whole Italian repertoire is more elusive, in its delicacy and clarity, than almost any other study of similar nature that may be mentioned. It is not sung by a great soprano, it becomes a weary repetition of rapid notes. If it is given by one competent to do full justice to all its phrases, it becomes one of the most wonderful studies in tone ever written. There are only a few sopranos today who can do full justice to it. Miss Eames is one, and Miss Yaw is another. The latter's dazzling brilliancy in high tones, her rapidity and perfect command of all shades, make her a mistress of "Don Quixote's" great aria. William Mead, who is a master of flute playing, was Miss Yaw's support in the well-known flute passages, while Miles O'Donoghue gave an excellent piano accompaniment.

In her English songs, however, and especially the coquettish "Comin' Thro' the Rye," and the sweetly tender "Home, Sweet Home," Miss Yaw won on the fullest appreciation of her listeners from orchestra to gallery. To one of these hearty responses she replied with "Old Kentucky Home," and in still another, a pretty love song, for which she played her own accompaniment.

She concluded with David's "Thou Brilliant Bird," assisted by Mr. Mead and Mrs. T. Newman.

Stewart Edward White, the noted author, accompanied by Mrs. White, came to Los Angeles yesterday from their home in Santa Barbara. They are at the Van Nuys.

A. Dollar of the Robert Dollar Steamship Company, San Francisco, was in the city yesterday for a few hours. He made a tour of inspection of the field for the French industry.

Lace at 10c Yard

Some Oriental edgings in widths up to 6 inches. You wouldn't be surprised to see some of them marked 10c—that's the reason, we say, "Don't wait too long." Today 10c a yard.

A Merry Entertainment In the Music Section

Donald J. Garrison, the noted connoisseur, will demonstrate con songs from 2:30 to 5:00 o'clock this afternoon. It will pay you to bend every energy to hear him.

Neckwear

Two stirring economy items from aisle 2 for Saturday's selling.

25c Stocks at 15c
Pretty tab style; variety of different effects; some washable; others embroidered; 25c values at 15c. Aisle 2, today.

49c Chiffon Stocks
Tab and jabots; many different colors; many of them worth \$1.00; each in a separate box. 49c. Aisle 2.

Fountain Pens

And their good points by an expert from the factory of the A. A. Waterman Co., N. Y.—Rear aisle 5. She'll make an allowance on your old pen and tell you about the new automatic self-filling and middle-joint pens.

Ribbon Facts

Fashion papers are commenting more and more upon the increased use of ribbons. Ribbons for belts, for sashes and for the hair; ribbons to brighten up the prettiest lingerie; ribbons for summer parasols and dresses and daintiest hat trimmings.

And the Broadway is wide awake to your interests. The ribbons you want are here—all at Broadway prices. Many surprising values today, Aisle 1. Among them

40c Ribbons at 25c
Of fine domestic finished taffeta 6 inches wide. Most every good color—it's the ribbon for sashes and girdles and trimmings; 40c values today, aisle 1, at 25c.

Ribbon at 5c Yard
Good many satin taffeta ribbons worth 10c included in the lot; widths up to 1½ inches. Most all colors. Today 5c a yard. Aisle 1.

40c Ribbon at 25c
A 5-inch messaline; soft, lustrous finish; for sashes, girdles and trimmings. Aisle 1 today, 25c a yard.

Warp Print Ribbon 49c
The very height of ribbon beauty. Flowers in the newest Dresden patterns. Widths up to 6 inches. Many \$1.00 values included. Today in aisle 1, yard 49c.

Two Pounds Butter 45c

It's as choice creamery butter as this is a value. 2-lb. roll, 45c; 1-lb. roll, 25c. Fourth floor, grocery store today.

TABLE RAISINS, 10c LB.—Paper layer table raisins.
GOLDEN PERSIAN DATES, 2 LBS., 15c.
SMOKED SARDINES, 10c CAN—Choice Norway in virgin olive oil.
CHOICE CEYLON TEA, 32c LB.—Regular 40c value. In bulk.

FIND THESE FOURTH FLOOR.

Books at 8c

Books in fine strong paper binding—clear, legible print, good paper. 200 and more titles to choose from, including these:

"Adam Bede," "In His Steps," "Treasure Island," "Ardath," "John Halifax, Gentleman," "Samantha at Saratoga." Books published to sell at 25c. On sale today, third floor, \$ 1-3c.

Writing Paper

And some other stationery savings as important. Rear of Aisle 5.

50c French Damask Paper 40c
Pound of it; 2 packages envelopes to match; latest designs.

50c Box Paper at 39c
Berlin, in the new fabric design. A late idea. Good 50c values. Today at 39c.

25c Playing Cards 15c
Crown playing cards; good and snappy, highly polished card. In rear of Aisle 5, today at 15c.

Dennison's Lunch Sets 21c
Good 25c values. Very pretty and useful, and you'll want them for camping and outing trips this summer. Stationery counter today 21c.

25c Hosiery 15c

Imported cotton hose for women—Hermesdorf dye; full fashioned ones with double soles; medium weight, excellent quality at 25c. To sell today in aisle 6, the pair 15c.

39c and 50c Imported Hose 35c

High grade stockings for women; the imported kind of very fine cotton and lisle; in black, tan or white; allover patterns or boot effects; also some neatly embroidered in silk; all full fashioned; double heel and toe; all sizes to choose from; some sell regularly at 35c; majority of them 50c values; all in one lot in aisle 6, the pair 35c.

BOYS' HOSIERY—Heavy ribbed double heel, knee and toe; fast black and elastic. All sizes. Aisle 7, to 10c the pair.

CHILDREN'S UNDERWEAR—Pure white jersey ribbed; vests high neck, long or short sleeves; pants knee or ankle length; Aisle 7, the garment 19c.

NOTE PHONES EXCHANGE 337
The Broadway Department Store
BROADWAY COR. FOURTH LOS ANGELES, ARTHUR LETTS, PROPRIETOR

Pattern Hats \$5.00

\$7.50 to \$12.50 Values.

Think of pretty dress hats, imported models too, from the foremost milliners of Paris. Not too elaborate, but practical styles—just about an even fifty to sell today at \$5.00. That's the program for today's selling in the millinery section, second floor.

You'll find no end of styles to choose from, including the French sailors in large variety and Leghorn and fancy braid hats and horsehair flats made up in the daintiest sort of effects. You can choose from green, brown, black, white, pink, lavender, gray and natural straw color. Hats that have been quick sellers at regular prices—none ever sold for less than \$7.50 and many worth up to \$12.50. Just another illustration of the progressiveness of this millinery section of ours, and timeliness that marks all Broadway sales. Choosing will be spirited and early comers will fare best.

Lawn Waists \$1.98

Made from the dainty white Paris lawn, the kind that opens in the back; front trimmed with fancy designs of Val insertion; very latest style waists for summer wear. Long sleeves with deep lace trimmed cuffs and dainty collar attached. Choose from sizes 32 to 40; never sell for less than \$2.50. A leader today on the second floor, each \$1.98.

\$5 Silk Waists \$3.75

China silk, of course, in white; extra heavy quality; various styles; one, for instance, made with cluster of hemstitched tucks and rows of Battenberg insertion; tucked back; new sleeves, long and short style, various style cuffs, trimmed with insertion to match collar and front. Choose from all sizes. White only, mind you. Other styles in plain tailored and fancy trimmed effects. These are the real \$5.00 kind, and how cool and nice they are for summer—dainty enough for evening wear, too. On the second floor today, each \$3.75.

And while you are on the second floor, maybe you will be interested in that sale of men's suits at \$15.00. For particulars see other papers.

Embroidery 5c

A broken line of edges and insertions at 5c yard. They'll take them quickly today. Many pretty designs on Swiss, nainsook and cambric that are worth 12½c. On sale today, aisle 2, yard 5c.

Lace at 4c Yard

It would be very good value at 7½c. Normandy Valenciennes—very strong mesh and new patterns. Kind so much wanted for trimmings. Many will wonder how we can sell it today at 4c a yard. Aisle 1.

Women's Kid Oxfords at \$2.48

Worth \$3.50 in many stores, and they are worth just as much here as they are anywhere, but we price them \$2.48 today. That's the difference between the Broadway and other stores.

They are fine patent kid oxfords in Blucher or ribbon tie effects. Swell toe shapes and light hand turned soles; graceful high arch; Cuban or military heels. \$3.50 values today, aisle 8, the pair, \$2.48.

WOMEN'S CHAMPAGNE OXFORDS \$1.98—Here in chocolate colored kid, too; Gibson or ribbon tie effects; neat toe shapes; shapely oxfords that are a splendid value at \$1.98. Aisle 8.

GIRLS' PATENT LEATHER OXFORDS 85c—Many worth \$1.50; sizes 8 to 2. Aisle 7.

Men's \$4.00 Shoes \$2.69

They are here in either patent calf, vel kid or box calf; hand welted soles and straight or swing lasts; smart toe shapes; many of them worth \$4.00 the pair; \$2.69 today, Aisle 9.

Twelve-Inch Lawn Mower \$2.98

It's a 12-inch three blade guaranteed mower. Easy running—watch them go today in the basement at \$2.98.

Hose Reels at 89c
8 Rolls Toilet Paper 25c
16-inch Feather Duster 25c
Filled with good fluffy turkey feathers.

Find All the Above in the Basement Today.

50-foot Hose \$5.98

It's a 7-ly red garden hose, with nozzle or spray, guaranteed for two seasons. Whole 50 feet of it for \$5.98. In the basement. That's to show you that it's important for you to buy your garden things at the Broadway.

Sale of Pipes 17c

25c and 35c values of French briar; straight and bent stems; rubber, horn and celluloid mouthpieces; 25c and 35c value on sale aisle 4, at 17c.

The new Wellington pipe at 50c is a dandy. There's a little nicotine catcher inside. See it in aisle 4.

\$4.50 Watch Chains \$2.50

They are of extra good 14-carat gold filled chains; guaranteed to wear 10 years—that gives you an idea of their quality. Rope, curb and trace links. Some \$3.50 chains included, aisle 3, \$2.50.

Chemisettes 25c

Good 35c values—new ones of lawn; embroidery patterns. It's in accord with the Broadway's policy to sell what many stores would ask 35c for, today at 25c each, Aisle 2.

SAMPLE GOWNS

A Third Off

\$4.98 values at \$3.35, \$3.48 values at \$2.35, \$2.98 values at \$1.95, \$2.48 values at \$1.65, \$2.75 values at \$1.15.

That's the way the story goes and the gowns will go almost as quickly. It's an opportunity we are able to offer only once in a long while. Unusual values; see them to see how unusual they are. Prettily trimmed with lace and embroidery. A third off the regular price. On sale at the prices quoted above, second floor, today.

69c Drawers 45c

They are made of fine quality cambric and long cloth; out of the ordinary values for women to share, today at 45c. Some of them have full ruffles of lawn and hemstitched tucks; others trimmed with wide embroidery, lace and insertion; 69c values, today, second floor, 45c.

Drug Savings

Aisles 4 and 5 will be busy thoroughfares today. Look at these values to get an inkling why.

DANDERINE AT 17c—Regular 25c size. It's good to keep the hair thick and healthy.

HARLEM OIL 5c—It's the original imported; 10c size.

SAY RUM 30c for a 50c pint bottle. Good strength.

ELECTRO SILICON 7c—Well known 10c silver polish.

RUBBER BEAUTY BRUSH 15c—Splendid brush for facial massage; 25c value 15c.

JERSEY FOUNTAIN SYRINGE 40c—3 or 3 qt. size. Many of them worth 75c. Today 40c.

\$1.00 HAND MIRRORS 75c—Heavy plate glass mirrors with red cherry backs; unusual values today at 75c.

TETLOW'S BATH POWDER 15c—25c size; the kind that makes the water soft and fragrant.

Sale of Walking Skirts

250 of Them at \$4.98

And they are good \$6.75 and \$7.48 values. Nobility shaped and tailored all-wool fabrics. Summer weight. Mohairs, Panamas, serges, worsteds, cashmeres and spring novelties. At least 35 styles to choose from, including circular and semi-circular effects; plaited and side flounce effects; some only one of a kind. Most every wanted color. All size waist bands and lengths, 39 to 44. Values such as we've seen sold for \$6.75 and \$7.48. Saturday, second floor, \$4.98.

35c Underwear 25c

Chance for women to save—good vests and pants in a Swiss rib; lisle finish; low neck, no sleeves, lace yoke; silk taped; Jersey ribbed pants with lace-trimmed knee; 35c values, 25c. Today, aisle 6.

50c Underwear at 39c
Boys' summer balbriggan underwear; eury color; good, firm weave; well made and properly cut; drawers have bicycle seats; shirts long or short sleeves; 50c values at 39c; aisle 7.

17c Stockings at 12½c
Women's stockings made of fine maceo yarn; seamless finish; black or tan; all sizes; 17c values at 12½c. Aisle 6, today.

Vests or Pants 15 Cents

Women's summer weight Jersey ribbed vests or pants; pure white; vests with high neck; and long sleeves; pants lace trimmed. Aisle 6, today, 15c.

New Belts 59 Cents for 75-cent Values

They are the bright new "Princess" belts; fine quality linen; 7 rows of tucking; the latest thing in the East. We ought to sell them at 75c, but we'll make lots more new friends today by selling them at 59c. Aisle 2.

Shopping Bags \$1.45

That's from \$1.95 to \$2.48 values. Morocco, seal and walrus grain leather bags in carriage shapes. Riveted and leather covered frames. Some of them lined with leather, others with moire silk. Fitted with card case and coin purse. \$1.95 to \$2.48 values today, aisle 3, each \$1.45.

WOULD CRACK COBBLESTONE.

BUT THE TERRIBLE BLOW ONLY DENTED HIS SKULL.

Enraged Workman Sneaks Behind His Boss and Hits Him on the Head With a Heavy Sledge Hammer and Knocks Him Out for a Short Time Only.

Enraged because he had been discharged, John Curcio, a Slavonian laborer, seized a fourteen-pound sledge hammer and struck Peter Marchiondo on the head. Marchiondo fell like a log with his skull fractured in two places. Curcio attempted to run, but was seized by other men in the gang and held until the police arrived.

Marchiondo displayed remarkable vitality and equally wonderful fortitude. He soon recovered consciousness and when the police ambulance arrived he was able to sit up beside the man who had attempted to murder him during the fight at the Central Police Station. On arriving there he quietly informed the desk sergeant that so soon as he could get his head bandaged he intended calling at the office of the prosecuting attorney to secure a complaint against Curcio.

He walked into the Receiving Hospital and lay down on the operating table while the surgeons examined his head. He heard that his skull had been fractured but it did not appear to worry him in the least, and while his head was being shaved preparatory to operating, he told his side of the story and said:

"I am a straw boss on a conduit digging crew of the Sunset Telephone Company. We were working on North Main street near the corner of LeRoy. This man had only been with the gang a few days, but he was hard to manage and would not do the work assigned him, so I discharged him. He got mad and went to the foreman and told him that he was going to take him back. Then he got a fourteen-pound sledge hammer from the tool shed and sneaked up behind me and brought it down on my head.

The other men in the gang saw him hit me and told me afterward. They tried to stop him, but did not realize what he was doing until too late. When Curcio was brought in by the detectives to the station, I calmly said: 'Yes, that's the man who hit me. I rode up in the patrol wagon with him.'

The police surgeons operated upon the injured man's head and announced that in their opinion he would recover, though the case is remarkable in many respects. Curcio is a native of France, is 33 years old and on North Main street. Curcio is being held in jail without bail, charged with assault with intent to commit murder.

"BAD COON IN TOWN."

Fights Hard to Escape Arrest and Tries to Use a Revolver, but is Overpowered.

H. Williams, who claims to be an Alabama negro, was arrested yesterday afternoon by Detective Zeigler on suspicion. The man made a desperate fight and attempted to use a big revolver, but the detective was too strong for him and clapped the handcuffs on him before Williams could draw the gun.

Zeigler noticed the negro carrying a bundle of shoes and clothing and acting in a suspicious manner and approaching laid his hand on Williams's shoulder and told him to stop. The officer took a firm grip, but Williams tore away and dashed down the street as fast as he could run.

The detective gave chase and overhauled Williams before he had run a block. Just as the officer was about to grab him the negro whirled and put up a terrific fight. Several times he attempted to draw the gun, but the weapon stuck and the detective was able to seize the black's wrist in time whenever he reached for the gun.

Finally Zeigler overpowered the black and took him to the Central Police station. The gun and holster were taken from him. A check of the key and other suspicious articles were also taken from Williams and a pair of shoes and some clothing which the police believe he stole, were also booked for carrying concealed weapons, but the case will be carefully investigated.

WENT TO SLEEP.

Mrs. Hooper Fulfilled Her Three Score and Ten, Then Chose the Gas Route.

Mrs. Christians Hooper, aged 70 years, was found dead in bed at her home, No. 1113 East Twenty-ninth street, yesterday morning, by her daughter, Miss Alvina Hooper. Gas was flowing into the room from a jet which had been opened wide, evidently with suicidal intent and death was from asphyxiation.

Only a short time ago Mrs. Hooper with her daughter came to this city, and the dead woman leaves six other children in the East. She has been acting peculiarly for some time, it is said, and has refused to use gas. Thursday night she retired early, but when she did not appear yesterday morning her daughter went to her mother's room and found her dead.

She had carefully prepared herself for bed and then evidently turned on the gas full force and went to sleep. No reason is known why she should have wished to die. The remains were removed to Breese Brothers' morgue.

IT MAY BE SUICIDE.

Clark Wanted to "Poo His Wife," so First He Deserted Her and Now He Is Missing.

Has Charles Clark committed suicide to make good his threat to "poo his wife"? He left her in this city about a month ago with their two children to support. He told friends that he could not get along at home.

When he left his family he went to the Springman Villa, No. 1113 Downey avenue to board. On Wednesday night he went to the place drunk and raised a disturbance. An officer was telephoned for and a request made that the man be locked up for the night. He had quieted down, however, and instead was put to bed in his room and when he awoke he was sleeping.

When he did not appear at breakfast Fritz Springman went to Clark's room to wake him. He was surprised to find the bed empty and a check of Clark's clothes and his watch in the room. A search was made, but Clark could not be discovered, so the police were notified and the department began a search for the missing man. Two days have passed but no sign of Clark has been found.

The police believe that the man has taken his life. Springman knew Clark well and says the man left all the clothing he had with the possible exception of one pair of overalls in his room, together with his watch and a small amount of money. He says Clark never told where his wife and

Alkaline—Antiseptic—Makes the gums strong and healthy, gives the teeth a pearly luster, purifies the breath. What more could you ask of SOZODONT? Do not experiment with dentifrices. The teeth will not stand it. Stand by SOZODONT and the teeth will stand by you.

children were and they have not yet been located by the police. It is thought that Clark has been drinking so heavily that his mind became unbalanced and this is an argument in the suicide theory. Clark was employed by the Standard Oil Company in their local plant.

REAL BAD "KIDS."
Two Small Boys Are Arrested Upon a Charge of Grand Larceny for Stealing a Bicycle.

Jim Bridges and Harry Schile, aged 14 and 10 years, respectively, were arrested yesterday afternoon for stealing a bicycle Thursday night. The wheel had been left standing at the curb in front of the Grand Opera-house. The boys admit taking the wheel. Little Harry claims that Jim told him to take the bicycle and ride home on it, and that he would get it in the morning and sell it. He carried out his part, and Jim attempted to hold up his end, but was caught. He blames the crime on his small associate.

Sgt. McKee of the East Side Police Station gives both the boys a bad character, but says Jim is the worst of the two. He stated that both boys have been in trouble several times. Young Bridges lives with his parents at No. 1410 Mission road, while little Harry Schile lives at No. 1720 East Main street. Both boys were locked up in the Detention Home, charged with grand larceny.

CRIME BRIEFS.

"Lord" Barrington Must Hang.
JEFFERSON CITY (Mo.) June 1.—The Supreme Court today affirmed its decision in the case of "Lord" F. Seymour Barrington, condemned to death for the murder of James F. McCann, and fixed the date of execution for July 26.

NEWSBOY NELLIGAN LET GO.
DIDN'T MURDER MILHUFF GIRL.
(BY THE ASSOCIATED PRESS—P.M.)
SEATTLE, June 1.—Testimony was taken today in the inquest over the body of Elsie Milhuff, the twelve-year-old daughter of W. S. Milhuff, who was murdered at Renton Tuesday night.

Tom Nelligan, the fifteen-year-old newsboy held on suspicion, was one of the first witnesses. This afternoon, the prosecuting attorney called off taking further testimony before the coroner's jury, declaring there was no evidence to warrant holding Nelligan. After five minutes' deliberation, the jury returned a verdict of death at the hands of a person unknown. Sheriff Smith has offered a reward of \$1000 for the capture of the murderer.

GIVES LIFE FOR SCIENCE'S SAKE.
ROCHESTER, June 1.—Dr. Louis A. Weigel, the first American authority on the fourteen rays, died here yesterday as the result of his experimental work in that connection.

In October, 1904, it became necessary to remove his right hand and three fingers of his left hand, which had been covered with a cancerous growth. A few months later, he was again put under the knife, and his left chest muscles were removed. Four more operations were performed before he finally succumbed.

PROF. LAUGHLIN KAISER'S QUEST.
BERLIN, June 1.—J. Laurence Laughlin, professor of political economy in the University of Chicago, who came here a month ago to lecture before the Social Science and Education Society, on the invitation of Emperor William, attended a dinner at the Schloss last night, given in honor of military officers, who are participating in the annual spring parade. The Emperor, in conversation with Prof. Laughlin, showed a keen interest in social problems in the United States.

MEASURES FOR WORLD'S PEACE.

THE LAKE MOHONK CONFERENCE
ADOPTS RESOLUTIONS.

Petition the President to instruct the delegates to the Peace Assembly at The Hague to urge the introduction of a platform arranged by the International Society.

THE ASSOCIATED PRESS—A.M.
LAKE MOHONK, (N. Y.) June 1.—The Lake Mohonk conference on international arbitration adopted resolutions petitioning the President to instruct the delegates to the peace conference at The Hague to urge three measures to conduct to the peace and welfare of the world. The measures are as follows:

A plan by which The Hague conference may become a permanent and recognized congress of the nations, with advisory power.

A general arbitration treaty for the acceptance of all nations.

A plan for the restriction of armaments and, if possible, for their reduction by concurrent international action.

The conference voted to continue the college special committee for another year.

A platform presented to the conference by Dr. Gifford, seconded by Justice Brewer of the Supreme Court and Dr. Clair McKelvey, was unanimously adopted, as follows:

"The members of this conference, with great satisfaction, call attention to the steady progress which the world is making in the promotion of international arbitration. They place on record their appreciation of the character and services of John Hay, the late Secretary of State, and acknowledge that it is his lasting gratitude to him for his high official station which has enabled the principles which this conference has advocated."

"They have heard with gratification that many of the leading colleges and universities of this country have adopted the study of the principles of international law and the best methods for the study of methods by which justice may be secured among nations."

"The conference has welcomed to its proceedings the representatives of the chambers of commerce, boards of trade and other commercial organizations and it urges upon them and other like institutions not now represented here to consider and act upon measures which are from time to time proposed for the promotion of peace."

"The conference regards the approaching assembling of a Pan-American Congress in Rio Janeiro as likely to promote mutual understanding and consequent good will among the nations of North, Central and South America."

"At the present time it is important that public attention should be concentrated upon the second Hague conference, soon to be assembled. We hope and believe that the beneficial results of the former conference will be repeated and perhaps surpassed by the deliberations in the Land of Peace upon the principles of international law and the best methods for the settlement of international disputes."

"Especially we hope that the second Hague conference will elaborate and issue a plan by which like conferences may be held at stated periods and that in the intervals appropriate measures may be maintained at The Hague that these conferences may become a permanent and recognized congress of the nations."

"A general arbitration treaty to be submitted by The Hague conference is most desirable and will doubtless be accepted by all or nearly all the nations represented in the conference."

"Among other subjects of immediate importance the many unsettled questions arising out of maritime warfare, including the exemption of private property from seizure at sea and the neutralization of ocean routes, are respectfully recommended to the consideration of the Hague conference. As the general restriction of armaments may be secured by concurrent international action as unanimously raised by the British House of Commons we earnestly hope that this subject will receive a favorable consideration."

"While we shall welcome any action taken by the coming Hague conference in the way of clearly defining the rights and obligations of belligerents to each other and as to neutralization of the horrors of war and of increasing stability and for promoting the Red Cross movement, it is our hope that the conference will remember that it is consecrated to the work of ending as well as softening war and of substituting the relations of nations to the dominion of peace rather than force."

"PLAY, BURN CHILD AT STAKE."
MONTGOMERY (Ala.) June 1.—The 10-year-old child of Robert Maroney, Cedar Grove was tied to a stake and burned to death by playmates, mistaking the characters in a mock execution of "red men" recently presented to members of a local lodge in public hall at that place. The child, the oldest of whom is about 10 years of age, was the son of a family placed about his feet, saturated with oil. The flames communicated to the child's clothing, and in a moment the little boy was wretchedly burned. The other children, realizing what they had done, struggled vainly to tear away the burning material, and did rescue the child, still alive, but it almost immediately succumbed to his injuries.

"ROYALTY AT ISEN'S GRAVE."
CHRISTIANIA, June 1.—The body of Erik Isen, the Norwegian poet and dramatist, was buried today with demonstration of popular sorrow in the cemetery attached to the Church of the Holy Trinity. The mourners included King Haakon, the Cabinet Ministers and members of the Norwegian Parliament, and representatives of literary and scientific societies, home and foreign.

"TORNADO WRECKS BUILDINGS."
UNITA (I. T.) June 1.—A tornado struck this section last night. No damage was done here. At Claremont the Nelson building, unoccupied, the Farmers' National Bank building, in course of construction; residences and numerous summer cottages, were demolished. James West and a boy named Shelton were hurt, but not dangerously.

Thin or Stout, (Who Cares?)

"Ready-and-Right"
Will Fit

Were you EVER perfectly fitted?
"Ever?" we say and we ask a frank answer.
By "fit" we DON'T mean a suit that clings to your body like wall paper. (That's what SOME call "fit.")
We mean, by fit, a suit that possesses the proper and prevailing style and fits your figure exactly as fashion prescribes and in a becoming way.
"Bottle Shoulders" — "Tapering Waist" — "Full Hip Trousers" — "Peg Legs" — there isn't any other clothing made in the same way as of course "Ready-and-Right" is different. \$15.00 to \$40.00.

A Word of Warning

Don't buy substitutes for MENNEN'S BORATED TALCUM POWDER. "Just as good" is only a deceit by which a dealer tries to make money out of the superiority and success of MENNEN'S POWDER. There's nothing just as good as MENNEN'S and users of substitutes and imitations risk skin, complexion and comfort in doing so.
As a protection to health use Mennen's Powder and only Mennen's. Have you tried MENNEN'S VIOLET BORATED TALCUM POWDER? Ladies partial to violet perfume will find Mennen's Violet Powder fragrant with the odor of fresh plucked Parma Violets.
For sale everywhere for 25 cents, or mailed post paid on receipt of price, by GERHARD MENNEN CO., Newark, N. J.

Your corpuscles are hungry.

If you are indolent, tired lacking in ability to push to the front in the game of business, it's because your blood corpuscles are hungry!

They want iron.

Give it to them and they'll multiply so as to give you increased strength and energy and a renewed interest in life. Eat

Apitezo

and you'll feel the steady day-in-and-out glow of health as never before. Eat Apitezo and you won't spend half of your mornings "getting your wits together."

Apitezo is a delicious, crisp cereal that you eat with milk or cream. It tastes good and it does good because it contains a proper proportion of every food element that your system needs.

Put up in two forms, Apitezo Flakes and Apitezo Granules; the quality is the same in both. Sold by grocers everywhere.

Beautiful Teeth

That won't fall out of your mouth SOMETHING ENTIRELY NEW. The wonder of the twentieth century—that you can eat with as well as with your natural teeth. Come and see them. Shown in a demonstrated free. No charge for demonstration.

SALVAGE CUTS OFF REPAIRS.

Work on Partly Destroyed Structures Must Wait.

Insurance Companies Want Loss Adjusted First.

Great Annoyance Caused San Francisco Owners.

(BY DIRECT WIRE TO THE TIMES.)
SAN FRANCISCO, June 1.—(Exclusive Dispatch.) The work of repairing the steel buildings that were not destroyed by the earthquake and fire has come to a full stop. All of the men engaged upon the St. Francis, the Crocker, the Shreve, the Mutual Life and other structures have had to lay down their tools. This is the result of the action of certain insurance companies, which will not permit repairs to proceed where there is prospect of salvage, while, at the same time, they are in no hurry to adjust the losses on the buildings. Until they are ready to take action, all rebuilding operations must remain at a standstill. Nothing can be done except on those sites where the loss was total.

Work on the St. Francis had proceeded so far that a week ago trustees were redecorating the interior of the building. It was expected that the Crocker building would be ready to receive its former tenants in a short time. Other buildings were being put into repair rapidly, and their owners were leasing quarters to tenants. At the present time they do not know where they stand. Until the insurance men give the word, their hands are tied.

MILLS BUILDING DAMAGE.
Most of the big Mills building on Montgomery street will have to come down. Only the steel cage, or frame, was so little damaged by the flames that it can be utilized in the reconstruction. This frame will be stripped of brick, stone and tiling. In rebuilding the Mills block, the original plans will be amended so that each floor will carry its own weight. The contract for the tearing down of the walls and floors will be let within a few days.

St. Ignace Church, the stately structure that stood at the corner of Van Ness avenue and Hay street, will not be rebuilt on its former site. The Jesuit fathers are planning to build in the Western Addition, near Golden Gate Park. All the church and college buildings will be restored in time, and temporary structures will be erected to serve in the interim. The fathers expect that five years will be required for the fruition of their plans. The Van Ness-avenue property, which is valued at \$600,000, has been put upon the market.

With the arrival of Senators Newlands, Fred Shafter, the young son of the Earl of Hareheth, and others interested in the Palace Hotel property, it is announced that the Palace will not be restored along its former lines. The great catenary is to be rebuilt according to plans in which financial interest will take precedence over sentiment. It is to be narrower and heightened, probably to twice its former elevation. Not all of the former site will be utilized in the rebuilding of the Palace. A large office building will be erected on a portion of the land.

The world-famous hotel, with its great court, has passed into history with other stately landmarks of the city, and the structures that it replaced it will be so constructed as to bring the greatest possible revenue from this valuable site.

HIGH PRICE OF LUMBER.
Since the earthquake, the price of lumber has been advanced \$2 per 1000 feet to the consumer, and there is likely to be another increase. Retail dealers say they have had to make the advance because the wholesalers took the initiative in adding to their price schedules. On the other hand, northern lumbermen report that they are charging the wholesalers no more than they did before the first fire. Neither the railroads nor the shipping lines have changed their transportation schedules. Nevertheless, the retailers are expecting a further advance and are so informing their patrons.

As soon as the flames had subsided, the Moore & Scott Company began the work of reconstructing its iron works at the corner of Main and Howard streets. The firm has rushed night and day, and now the fire has the distinction of being the first of its kind to reopen in the burned district. Day and night repairs of machinery are now kept busy catching up with the accumulation of orders.

"Old" cars are running on the Mission and Edgewood streets lines between the hours of 1 and 5 o'clock in the morning, as they were in the days of the earthquake and all-night cafes.

BARRACKS FOR THE HOMELESS.
GEN. GREELY HAS PLAN FOR HOUSING REFUGEES.

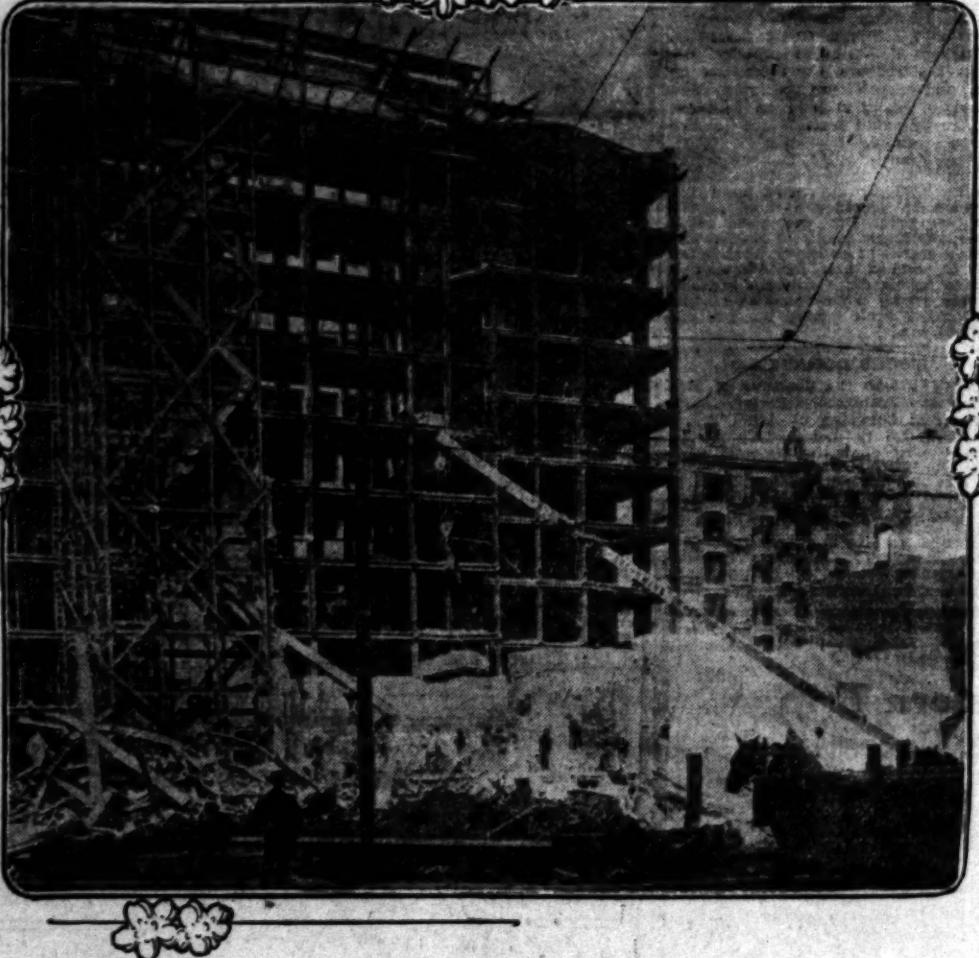

Advocate Erection of Temporary Buildings, Including Common Cook Houses, on Property Belonging to San Francisco Convenient to Car Lines to Be Rented for a Nominal Sum.

(BY THE ASSOCIATED PRESS.—P.M.)
SAN FRANCISCO, June 1.—(Special.) Gen. A. W. Greely sent a communication to Mayor Schmitz today in which he outlined a plan for the housing of the city's homeless. It is estimated that the ranks of the refugees will be greatly thinned out in the next few months through removal, but it is certain that some 20,000 homeless will have to be taken care of for the next year or so by the municipal authorities.

Gen. Greely says that the present mode of living in tents in parks and vacant lots will prove impracticable and unsanitary. He therefore recommends that temporary barracks be erected on property belonging to the city. These structures are to be put up by building associations under the supervision of the Red Cross.

They are to be located conveniently to car lines and are to be rented for a nominal sum, the rents to earn not more than 4 per cent on the capital invested. Each house will accommodate from five to eight families, three rooms to be allotted to a family. Common cook houses and baths will be provided for the barracks dwellers.

In speaking of the saloon situation Mayor Schmitz today said: "Nothing definite has been decided as yet as to when the saloons of San Francisco may be permitted to resume business. To everyone who has inquired of me the intention of the city

Rebuilding San Francisco—Crews at work laying foundations and restoring the sky-scrapers.

administration, I have given this answer: 'We may permit the resumption of the saloon business in thirty days. It is a question of finance. If it is determined that the city should have the money it is now losing through the closure of the saloons and the resulting loss of liquor license money it may be decided to permit the opening of saloons on July 1. On the other hand, if it is determined that it is for the better interest of the city that the question of revenue should be foregone and that the saloon should remain closed, it may be two months or three months before the question of the resumption of the liquor business is finally decided upon.'

When the extraordinary session of the California Legislature convenes tomorrow, the San Francisco Senators and Assemblymen will insist that adjournment be reached by the following Saturday at the latest. They will call upon the representatives from other parts of the State to rush through the legislation specified in the Governor's call.

Senator E. L. Wolfe, president pro tem. of the Senate, and chairman of the San Francisco delegation, thinks the work can be concluded in five days. He stated so this morning, but admitted that a week from tomorrow, and that he had heard an effort would be made by the southern contingent further to prolong the meeting.

APPROPRIATION IN BILL.
(BY THE ASSOCIATED PRESS.—P.M.)
WASHINGTON, June 1.—The House Committee on Public Buildings and Grounds inserted in the Omnibus Building Bill an item of \$75,000 for the rebuilding of the substructure of San Francisco. Additional ground for the site is to be purchased with \$75,000 of the amount and the balance will be used for the building.

Sir Chen Tung Liang Cheng, the Chinese Minister, who had just returned from San Francisco, called at the State Department yesterday and expressed to Secretary Root the Chinese government's deep appreciation of the kindness shown to Chinese during the recent catastrophe.

SESSION CALL INCOMPLETE.
(BY THE ASSOCIATED PRESS.—P.M.)
SACRAMENTO, June 1.—Gov. Pardee arrived in this city this afternoon and went at once to his office in the Capitol. He stated he had not yet completed his call for the extra session of the Legislature and indicated that it might be midnight before he would be prepared to make the contents of the call public. He said he wanted to go over the entire paper again and be sure he had everything just as he wanted it.

PHILIPPINE CONTRIBUTION.
(BY THE ASSOCIATED PRESS.—P.M.)
MANILA, June 1.—The final meet-

ing of the San Francisco Relief Committee was held today at the government building, formerly the Palace. The subscriptions, amounting to \$1,170 per cent, were sent on Monday to the Secretary of War.

GOWN BETRAYED HER.
Mrs. Conroy Meets Former Maid Dressed in Stolen Finery—Search of House Reveals Fine Stock.

It was an unfortunate idea which possessed Mabel Jones when she dressed herself in a stolen gown Friday morning and sailed down Broadway. Mabel is colored, and has a penchant for finery. Incidentally Mabel found herself in a cell in the City Jail at 11 o'clock last night, and in an adjoining cage was the girl's mother, Mrs. Elizabeth Moore.

Both women were employed by Mrs. J. F. Conroy, No. 555 West Thirtieth street, a prominent society woman. Mrs. Moore has been in the employ of the Conroys for several years and recently her daughter spent several months at the same home. A few days ago the women left with an apparent excellent excuse for severing their connections with the household.

Friday's developments, however, revealed an ulterior motive in the sudden termination of the Jones-Moore contract. Mrs. Conroy went shopping Friday morning, and while walking on Broadway, noticed the approach of her former maid, Mabel Jones.

The girl attempted to escape notice, but was unsuccessful. She was questioned regarding the manner in which she had obtained possession of the handsome street gown which she was wearing. The gown belonged to Miss Bri Conroy, and had disappeared at the time of the departure of Miss Jones.

The girl made no defense and after acknowledging the theft begged for mercy. Mrs. Conroy reported the case to the police, but stated that she did not desire to prosecute the girl.

Last night Colored Patrolmen Glenn and Stevens located Mrs. Moore and her daughter in their home at No. 962 Hemlock street, and devoted nearly an hour in locating all of the stolen property which the colored women had stowed away in various rooms.

In addition to the gown which the girl had worn the officers found a quantity of lingerie of all kinds and additional clothing to the value of about \$200.

The women were taken unawares and assisted the officers in collecting the stolen finery.

A charge of grand larceny will be preferred against the two women.

JUMPED TOO SOON.
John Wyvell, aged 65 years, of Glendale, was painfully injured in a runaway accident on South Broadway yesterday afternoon. He was driving without blinders on his horse. The animal had never been driven without blinders before, and on Broadway near Tenth, the horse looked around and saw the top of the buggy apparently chasing him. So terrified the animal that he dashed north on Broadway and Mr. Wyvell, seeing that he could not stop the animal, jumped from the buggy. He struck the pavement on his head and shoulders and sustained painful lacerations and bruises, but no serious injuries. A block further up the street the horse was stopped before he had done any other damage.

Thirteen alleged members of the mob which, early Monday morning, lynched John V. Johnson, at Wadsworth, N. C., are in jail without privilege of bail, the charge being murder.

PROOF TIME EXTENDED.
(BY THE ASSOCIATED PRESS.—P.M.)
OAKLAND, June 1.—At the meeting of the Insurance Adjusters' Committee this afternoon it was announced that 31 of the 117 companies involved in the San Francisco loss have agreed to extend the time for filing proofs of loss to August 17.

REPRESENTATIVES PRESENT.
The following is a nearly complete list of those present, and the fire insurance companies they represent: President George P. Sheldon of Phoenix Insurance Company of Brooklyn, acting as chairman; E. H. A. Corea, vice-president; Hope, R. M. Bissell, vice-president Hartford Fire; W. N. Kremer, president German-American; A. H. Wray, president Commercial Union of New York; E. R. Irving, president Fire Association of Philadelphia; J. B. Branch, president Providence of Washington; J. J. Kenney, of the British-American; George B. Edwards, vice-president; Queen; Marshall S. Driggs, president; and E. K. Douglas, general agent, Williamsburg City; W. H. Stephens, president Agricultural; George O. Howe, vice-president Niagara Fire; Joseph McCord, vice-president Hanover Fire; Theodore H. Prince, president Eagle Fire; F. L. Headley, vice-president American of Newark; K. M. Gratz, vice-president Girard Fire and Marine of Philadelphia.

Henry Evans, president of the Continental, left before the meeting came to order, and said later that the company was not bound by any action taken by several companies which attended a previous conference held Tuesday were not at yesterday's session. The resolutions were telegraphed to the Adjusters Committee at San Francisco last night, and also cabled to London for the information of the British companies.

WILL NOT PAY QUAKE LOSSES.
Insurance Companies Limit Their Liabilities.

Will Settle Only for Damage Caused by Fire.

Important Meeting in New York Makes Decision.

(BY THE ASSOCIATED PRESS.—A.M.)
NEW YORK, June 1.—An important meeting of American insurance companies was held here yesterday when resolutions setting forth the position of the underwriters represented as regards the adjustment of liabilities in the San Francisco conflagration were unanimously adopted. The rulings affect it is claimed, not less than 75 per cent of the insurance carried by American corporations and explicitly deny liability for purely earthquake losses.

After pointing out the complex and intricate nature of the problems presented for solution and stating that it is highly desirable that all losses for which the companies are legally liable should be promptly and fairly settled, the resolutions continue: "Whereas, it is expedient that a statement as to the legal and moral liability of companies in regard to claims arising from the catastrophe at San Francisco should be made, the following is adopted as a fair statement of such liability, suitable to be used as the basis for adjusting losses:

"First, that where policies covered buildings (and their contents) which have certainly fallen before the fire or which had been so damaged as to avoid the insurance under the express terms of the contract, claims under such policies should not be paid.

"Second, where policies covered buildings (and their contents) which may have been damaged or destroyed by the authorities, civil and military, subsequent to the conflagration, claims under such policies should not be paid until the facts have been definitely ascertained.

"Third, (a) where policies covered buildings (and their contents) which probably were, but not certainly, so damaged by earthquake as to be brought within the provisions of the fallen building clause; or (b) where policies covered buildings (and their contents) which had suffered from shock of earthquake, but not to such an extent as to bring them within the provisions of the fallen building clause; or (c) where policies covered buildings (and their contents) which had been damaged or destroyed by the authorities, civil and military, before fire had reached them; and (d) where policies covered property whose owners by reason of the destruction of their books and records are unable to supply the proofs required by the conditions of their insurance policies. In all such cases claims should be settled by a reasonable compromise.

"Fourth, where policies covered contents of buildings which are certainly not affected by the exemption conditions of the policy, claims under such policies should be paid as soon as adjusted, subject to such deduction, if any, as may fairly be made on account of the salvage resulting from the removal of portable property from buildings before fire had reached them."

The following is a nearly complete list of those present, and the fire insurance companies they represent: President George P. Sheldon of Phoenix Insurance Company of Brooklyn, acting as chairman; E. H. A. Corea, vice-president; Hope, R. M. Bissell, vice-president Hartford Fire; W. N. Kremer, president German-American; A. H. Wray, president Commercial Union of New York; E. R. Irving, president Fire Association of Philadelphia; J. B. Branch, president Providence of Washington; J. J. Kenney, of the British-American; George B. Edwards, vice-president; Queen; Marshall S. Driggs, president; and E. K. Douglas, general agent, Williamsburg City; W. H. Stephens, president Agricultural; George O. Howe, vice-president Niagara Fire; Joseph McCord, vice-president Hanover Fire; Theodore H. Prince, president Eagle Fire; F. L. Headley, vice-president American of Newark; K. M. Gratz, vice-president Girard Fire and Marine of Philadelphia.

Henry Evans, president of the Continental, left before the meeting came to order, and said later that the company was not bound by any action taken by several companies which attended a previous conference held Tuesday were not at yesterday's session. The resolutions were telegraphed to the Adjusters Committee at San Francisco last night, and also cabled to London for the information of the British companies.

MEN

A proper examination is the first essential; it is the foundation to a cure. It is the only way to get started right. It leads to cures with positive assurance. I make definite claims for my method of treatment.

WEAKNESS

Decline of functional activity, strength and vitality is nearly always traceable to a disturbance of the functions of the reproductive system. Under my treatment functional equilibrium is restored, the nerve irritation reduced, the circulation is increased and strength renewed. My cures are absolute and permanent.

Varicocele Cured in
4 to 6 Days

Many men have been treated for varicocele by the common methods used and have hoped that nature would assist in re-establishing a natural physiological condition, but not one in my knowledge have had their hopes realized. Failure is sure to follow such methods as have been employed for the past many years. Varicocele deprives many of strength which they can ill afford to lose.

Commercial Value of
Good Health

Did you ever stop to think, my friend, what GOOD HEALTH meant to you in EARNING POWER? The arteries of commerce are teeming with human energy and force. The man who achieves WEALTH and position is the one possessed of GOOD HEALTH, his faculties alert, his brain GRASPS situations and conditions, which, backed up by PHYSICAL force, reaches the highest goal of his ambition.

Look around you, man; see the failures upon every hand, and upon investigation you will find that a majority were caused by reason of the promoter's lack of COMMERCIAL HEALTH. Therefore, as a business proposition it PAYS to have GOOD HEALTH, leaving out the question of the PLEASURES associated with its possession.

The Biblical admonition, without being sacrilegious, might well be changed to read, "What will it profit a man if he gains the whole world and lose his own health?" One who is at all familiar with the study of Physiology has but to visit the marts of commerce on a busy day to read in the faces of the eager throng of BROKERS the effect good health has upon individual dealers—one is careworn and tired, with furrows upon his brow, denoting the fires of energy are about extinguished, while his healthy neighbor bristles with JOY in the pleasure of extreme exertions. The wan, pale face and laggard step of the unhealthy man appeals to us in a most potent language.

Yes, it PAYS—PAYS BIG to have good health. How can you possess it? I'll tell you how. Harbor the remnant you have left; look to the causes that have led up to your present condition; correct your errors of living and dissipation, and if caused by folly or excess, your duty is to abandon them and for God's sake find some reliable PHYSICIAN who will advise and counsel and help you to gain possession of the greatest blessing on Earth—GOOD HEALTH.

Having spent years in the study of Special Diseases, we have found that MAN'S greatest weakness consists of violation of Nature's most potent laws governing his Reproductive system.

Excesses in early youth and later in married life lay the foundations for decay and drains. The snare and pitfalls surrounding the youth lead to dissipation and final ruin and decline. The contracted disorders so frequently neglected and improperly treated are no small items in the impairment of MAN'S nervous forces; hence, in admonishing you to seek relief we caution you against PRETENDERS, whose sole object in many cases is to extort a fee and give but mediocre service. Disappointed in results, you cling to hope of some day finding a MAN who is conscientious enough to treat you as you should be treated, and if you will call or write to us, if your case has not progressed beyond a CURE we offer you, without money or price, a free consultation and examination with a positive guarantee backed by a quarter million dollar corporation that will indemnify you against any possible loss of time or money.

We treat successfully all CHRONIC complicated contracted disorders, as well as Decline of men by a modern method that reaches the cause of the trouble without disturbing the Stomach by poisonous drugs.

One careful, painstaking, searching examination is desirable; but if you cannot call, write a full description of your case and our staff will answer you in a private address, and tell you what we can do for you through the mails.

Our offices are equipped with the most modern and scientific mechanical devices for the treatment of men. By the latest and best methods we cure to remain cured NERVO-VITAL DEBILITY, BLOOD POISON, ALL SKIN DISEASES, SORES AND ULCERS, SWOLLEN GLANDS, VARICOSE OR KNOTTED VEINS, PILES, RUPTURE, KIDNEY AND BLADDER DISEASES, and all diseases and weaknesses of men due to INHERITANCE, EXHAUSTION, or the result of SPECIFIC DISEASES. Consultation free, confidential and invited. Office hours, 9:30 a.m. to 8 p.m. Sundays, 9 to 12 noon.

MEN!

I Cure every case I treat or accept no fee

What

I

Say

I

Mean

DR. TAYLOR, The Leading Specialist.

My practice has become larger by far than that of any other physician or specialist in the West, and this is solely because of the positive cures I have made. The vast multitudes of men who have taken my treatment have not been disappointed. They know that I do not promise more than I can perform. To them I have actually illustrated in the cure of their own cases the truth of what I claim, namely, that my treatment is as certain to cure as it is that the patient engages my services and follows my directions. My success is due not alone to education, experience, skill and scientific equipment, but to the fact that I limit my study and practice strictly to diseases and weaknesses of men. I treat nothing else. To male maladies alone I have earnestly and exclusively devoted twenty-five of the best years of my life, and on them all my families are concentrated.

I Cure to Stay Cured: Weakness, Varicocele, Hydrocele, Specific Blood Poison, Contracted Disorders, Stricture and Reflex Ailments

I Charge the Lowest Fees I have the largest practice

Examination Free

I offer not only FREE Consultation and Advice, but of every case that comes to me I will make a careful Examination and Diagnosis without charge. No sailing must be neglected this opportunity to get expert opinion about his trouble.

If you cannot call, write for Diagnosis Chart. My offices are open all day from 9 a. m. to 9 p. m. and Sundays from 10 to 1 p. m. only.

THE CITY IN BRIEF

NEWS AND BUSINESS.

Shooting Fracture.

George Black, a real estate dealer living at No. 2118 South Grand avenue, sustained a fracture of his right arm in falling while roller skating last night. His injuries were attended to at the Receiving Hospital.

Ladies of William Penn.

Los Angeles Castle, No. 1, of the Knights and Ladies of William Penn of America, has been organized, with 110 charter members enrolled. The Supreme Castle of this new order was organized in this city in 1932.

Dingley Stopped.

R. P. Dingley was arrested for the third time within the past few weeks by Motorcycle Patrolmen McJannet and Herchold yesterday afternoon, charged with running his automobile at a high rate of speed down North Main street. Dingley was fined \$50 a few days ago for a similar offense, on the occasion of his second arrest.

Burglars Would Burn House.

After looting the house of A. Nishikawa, No. 482 Ducommun street, early Friday morning, burglars attempted to burn the place by setting fire to several newspapers under a bed. The papers did not ignite the carpet, but the charred pieces were found when the police investigated yesterday. The burglars, a pair of cut buttons and 40 cents comprise the stolen property.

Her Purses Stashed.

Mrs. E. R. Liley of No. 2013 Brookline avenue was the victim of two crooks yesterday afternoon as she alighted from a car at Third and Main streets. The woman's purses, containing \$5 and \$10 bills, were snatched from her by two men who nearly pushed her from the car steps. The men immediately ran away. Mrs. Liley was unable to give descriptions.

Spiritualists Meet.

The Spiritualists last night began a series of meetings in Elks Hall, in what they call the "Star and Crescent Crusade." The meetings will continue through Sunday, which will be "fortnightly" day, when folks with the spiritualist microbe in the blood will take floral tributes to their guides and arisen friends. Prof. Loveland delivered an address on the general subject last night.

Pioneers Get Invitation.

The pioneers of Los Angeles and San Bernardino counties have received a cordial invitation from the pioneers of Salt Lake to be their guests of honor on the celebration in the Utah capital of the first settlement. The event is to last three days, and great preparations are made. The Salt Lake pioneers promise the Southern California pioneers the time of their lives if they accept the invitation.

Dies from Injuries.

Mrs. J. E. Wiseman, who was run down by a runaway horse at the corner of First and Broadway Thursday afternoon, died yesterday morning from her injuries. Mrs. Wiseman was hurled to the pavement and sustained a severe concussion of the brain. It was at first thought she would recover, but about midnight Thursday night she began to grow weaker, and died shortly afterward. The coroner will hold an inquest today, and the funeral will be conducted Sunday afternoon at 2 o'clock at the undertaking parlors of Peck & Chase.

"First" Men Dine.

The Alumnae Chapter of the Sigma Chi fraternity banquet in honor of Alpha Epsilon Chapter and visiting members, last night at the Bristol. Covers were laid for 125, and the program of speaking tonight was enjoyed. Judge N. P. Conroy was toastmaster, and Rev. B. P. Dillon, C. A. Elder and A. F. Thomson responded. An impressive moment came when a silent toast was given for Clarence Miller, the honored member who recently passed away. A memorial was drafted for presentation to Mrs. Miller, and to the Grand Chapter.

Dinner for Robert Sherman.

A bachelor dinner was given to Robert Sherman, son of Gen. M. H. Sherman, at the Alexandria Hotel last night by a few friends. The affair was given in honor of the approaching marriage of Mr. Sherman to Miss Ruth Foster, which is to take place Wednesday. One of the smaller banquet halls of the Alexandria hotel had been appropriately decorated with bachelor souvenirs. An elaborate menu was served, and following it came a number of impromptu post-prandial speeches for the benefit of Mr. Sherman. Covers were laid for Robert Sherman, Frank Miller, U. Foster, Carlton Burke, Robert Craig, Logan Chandler and Gurney Newlin.

BREVITIES.

Plaza Souvenir Book. Thirty full page illustrations of magnificent night electrical floats and the hand-drawn of the floral parade features are published in this fine Pictorial Souvenir, printed on the best paper. Ready for delivery at The Times Job Office, 119 North Broadway. On sale at all bookstores and news stands. Price 25 cents.

The Parish Guild of St. Paul's Pro-Cathedral will serve afternoon tea on Saturdays during the month of June at the Parish House, No. 533 South Olive street from 2 until 5 o'clock. Home-made table delicacies of every description will be for sale. A cordial invitation is extended to all.

Miss Minna Turner Nye, Brooklyn, New York, will give an address on the "Mountain Whimsy of the South" Sunday, 1:30 p.m. at Plymouth Congregational Church, 21st st. one block west of Figueroa.

PARENTS' DAY.

Supt. Moore and Others Speak to Large Assemblage at Twenty-third Avenue School.

"Parents' Day" was observed with interesting exercises yesterday at the Twenty-third-avenue school. A luncheon and informal reception was given by the teachers in honor of Superintendent of Schools Moore and Assistant Superintendent Bettinger. An enjoyable hour was spent viewing the exhibits in the several rooms.

There was a formal programme after the reception, and many patrons of the school, who were specially invited to be present, were in attendance.

The residents of the district assembled to greet the new superintendent. Principal Hamer introduced Dr. Moore, who spoke at length concerning the opportunities which, he said, are for the youth of today.

"There are latent possibilities in the great battalions of children in our public schools," said the speaker. "If these have a desire and an ambition to be good, each must begin at once. We must inculcate ideas of patriotism."

The speaker told of the saving of the House of Flamingo at the time of the San Francisco fire, which was mentioned in The Times, and referred to the "Empty Sleeve," printed in last Sunday's edition. Dr. Moore urged the children to study the history of this country and hoped they would catch the true spirit of patriotism.

Mrs. Prior spoke in behalf of the parents. She said, in part: "Our teachers have honored us by calling this 'Parents' Day,' and I wish that more of the busy fathers would come to appreciate the work so ably done for our children, and thus for us, by this corps of teachers. I take this opportunity, on behalf of the parents of the district, to extend greetings and a hearty welcome to our new superintendent on the first occasion, that he has visited the Twenty-third-avenue school."

"There has been discipline without severe measures. There has been advancement along all lines of school work, and the play hour has been made to develop the character of the child, resulting in happy, respectful children."

SANTA FE CAR OVERTURNS.

The Accident Occurs at Riverside, but Luckily Nobody Is Hurt.

[BY DIRECT WIRE TO THE TIMES.] RIVERSIDE, June 1.—[Exclusive Dispatch.] The Santa Ana local train, No. 12, on the Santa Fe, met with a serious, but bloodless accident, near tower 10 at the crossing of the Santa Fe and Southern Pacific tracks. When it was passing the tower at 3:35 o'clock this afternoon, the rear coach was seen suddenly to capsize into the ditch, where it lay on its roof and side. Supposedly the tower man had opened the derailing switch before the train had fully passed the danger point. The car was locked and empty.

VITAL RECORD.

BIRTHS, DEATHS, MARRIAGES.

SIEGELS—WOMEN'S—CHILDREN'S WEAR
Myer Siegel & Co.
251-255 SOUTH BROADWAY
"The Children's Wear Specialty House"

Children's Wear

Most becoming and very stylish garments are shown in a bewildering variety of fashion and for all ages up to the young woman of twenty. The suspender-dress is very much in vogue; we display one of these made of a beautiful checked French-gingham and embroidered lawn gingham, priced \$2.50.

For little girls and boys of 2 to 7 years we show a vast assortment of kites which are very popular, in all white and pretty cool-tone shades, made of wash fabrics that will stand the tub, and properly trimmed with English embroideries and hand-embroidered designs; priced \$1.00, \$1.25, \$1.50, \$2.00 and up. The main feature found in children's clothes that come from "The Specialty House" is that they are made to fit, made to wear and made of the latest fashion and with the best skill obtainable.

Headwear

Aside from the lingerie hat, here is to be had the continental, Napoleon, Russian, sailor, Tam O'Shanter, etc. Modes of distinguished individuality and exquisitely trimmed in an exclusive manner, of straw in all white, and in new combined colorings of finest braid. Popular in prices—\$1.00, \$1.25, \$1.50, \$2.00 and up. We have them also in wash fabrics such as pique, linen, deck, canvas, etc.; priced 50c, 75c and up.

Women's Belts

Special prices prevail on the largest line of women's neckwear and belts with many sample novelties, which prices are half and less than half. Belts 25c up. Neckwear 15c and up.

SATURDAY MORNING, JUNE 2, 1906.

A. B. Blackstone Co.

DRY GOODS
SPRING AND THIRD STS.

Seasonable Underwear

While you're buying, buy "Merode" Underwear and be comfortable. It's the kind that's knit to fit. Every garment carefully hand finished.

Our summer lines are now complete. Every wanted style, quality and price.

"Merode" cotton vests at 12 1/2c, 15c, 17c and 20c.
Merode lisle vests at 25c, 35c, 50c and up.
Pants, knee or ankle length, at 25c.
Corset covers, lace finished, 50c.
Union suits, knee length, umbrella shape, finished with lace, at 50c, \$1.00, \$1.25 and up.
Fine lises and silk garments at all prices.

Black Taffeta Etons
\$6.95

A new lot of those pretty little Etons, made of a good grade of chiffon taffeta, lined with white satin, trimmed with black and white braid and white taffeta silk. If you want one of these little jackets, better come before noon else they'll be gone.

Peter Pan Waists
\$1.25

The very latest New York fad is this Peter Pan waist. Made of fancy woven white madras cloth in neat, genteel figures; cut like a man's shirt; soft turn-down collar, short sleeves, turn-back cuffs, plaited front, large pearl buttons—each.

Three dozen handsomely embroidered pure linen Waist Patterns. \$3.00 ones reduced **\$1.50** today to

Victors Vacations

The Victor Talking Machine should be included in the equipment of every tripper to the seashore or the mountains. No matter whether your destination be the fashionable beach resort or "the wilds," the Victor will add to your enjoyment—play for dancing in the ballroom, sing favorite songs as you sit around the camp fire. There are many talking machines, but only one Victor—look for the dog when selecting your summer outfit.

During the month of June thousands of Los Angelenos will go to the seashore, country or mountains. At many of the smaller resorts and hotels the visitors find plenty of amusement to fill up their days. But how about when the sun goes down? That's where the Victor comes in—plays for dancing, indoors or out; sings tag-time or grand opera—in fact, entertains everybody. Proprietors of country hotels need the Victor. It will make their place popular. It's an investment that pays.

Victors cost from \$17 to \$100. Victor records range in price from 25c to \$2.00 each. We sell Victors and records on monthly payments. Small sum down and take the outfit home. After a few months the payments cease; but the enjoyment goes on indefinitely. We want to tell you more about Victors. Come in.

Free Music Lessons

In our small goods department you will find every requisite for the amateur and professional musician. String, wood-wind and brass instruments with all necessary fittings. A free course of music lessons at a prominent local conservatory given with every musical instrument purchase of \$5.00 or over.

SECRETARY BRUNER OUT OF HARNESS.

Sensational Turn in Horse Racing Association—Deficits and Digging Into Pockets Displeasing Members. Plan of Rejuvenation.

A. W. BRUNER has resigned as secretary of the Harness Horse Association. He quit last evening at a meeting of the directors. R. A. Smith was immediately elected to succeed him, and will take charge of the books today. Bruner expects to go East for a time, starting in July.

On top of this sensational turn in the affairs of the racing organization comes a plan for its entire rejuvenation. New directors have been chosen and incorporation is projected. Stock will be sold, probably at \$25 a share. Attendees at the meeting last evening each agreed to subscribe for four shares.

It is the intention to interest a large number of business men and citizens generally in the association, and to

Officers and directors of Harness Horse Association and Los Angeles Driving Club, between which may arise breach because of radical changes proposed by the first-named organization.

give to its future meetings an impetus which they have seemed to lack, especially in the last two meetings—in July and November last. With a larger number of persons actually interested as stockholders, the supposition is that there will be just that many more millionaires in the field to stir the public into attendance at the meetings.

There were rumors yesterday that a storm would break when Secretary Bruner was called upon to give an account of his stewardship. Some members of the association were unkind enough even to hint that a new secretary would make things hum with something more of a vim than has been apparent in the last year.

Castling up the losses that have been shared by the members as the result of the July and November meets, there arose a question as to why the members had to dig down so deep into their pockets to make up the deficit.

HOLE AND A DIAGRAM.
There was a matter of something like \$2000 that would have made the financial hole just that much smaller—it was about \$2000 deep for the two meetings—and Bruner was asked to draw a diagram. Some of the members had no clear conception as to what caused the hole.

Secretary Bruner made a full explanation of this matter, however, by saying that the amount was due the association from owners of horses that had been entered, but which did not start. There were forty or forty-one of these horses.

For each one of the animals there was a forfeit of \$50 for failure to start. This money, Bruner explained, was not collected, although he stated that it was an asset of the association and would be collected in due time under the rules of the National Trotting Association.

The \$50 is supposed to be held as a penalty over each horse, preventing its entrance in any national association meet until the amount is paid, whereupon it will find its way back to the local organization.

"This is a good asset," said Bruner, "although there are some of the penalties that never will be collected. Some of the horses have died; others have gone lame and never will race again."

The secretary read a list of the horses for which the money had not been collected. This cash is supposed to come to the association in time through the machinery of the National Trotting Association.

As to the report that the amount was far in excess of \$2000, Bruner laughed in derision. When he was advised that such persons had placed the figure as high as \$5000, he declared that such a thing was impossible. Members of the association also said that this amount was far out of the way.

ONLY ONE CRITICISM.
The only criticism directed against the secretary by members of the association was that he had not been as business-like in his conduct of the office as they might have wished. His report of the manner in which

A. W. BRUNER, who has resigned as secretary of the Harness Horse Association and is going East for a time.

Los Angeles Driving Club. In some instances, directors of one are directors of the other, although, as is well known, the organizations are entirely distinct.

Dr. Dodge, for instance, is president of the Driving Club and is a director in the Harness Horse Association, while Mr. Canfield is a director of the former and president of the latter.

When the incorporation of the harness organization is perfected, it is said to be likely that a more distinct line will be drawn between the two; that each will have its own directors and officers, none of whom will be connected with the other organization.

As explained by a harness association director last night, the Driving Club is a gentlemen's club, while the other is patronized more by what might be called the masses of the racing-loving public.

W.C.T.U. PRESIDENT.

Spiritual Contest Expected at the State Convention Next Week Between Three Prominent Women.

The twenty-fourth annual W.C.T.U. convention of Southern California will be held next week at Riverside, opening Tuesday and continuing in session until Friday night. Delegates from all over Southern California will be there, and as the president, Mrs. Emma Cash, is about to retire from that office, the annual election will be of unusual interest. There will be at least three candidates in the field, Mrs. Lucy S. Blanchard, Rev. Alice Robinson and Miss G. T. Stickney, while the other is patronized more by what might be called the masses of the racing-loving public.

Mrs. Cash has been actively engaged in temperance work for more than twenty years. She was county president before she was elected to preside over the State affairs of the W.C.T.U., two or three years ago, and has held many prominent offices. Now she is about to retire from active service as she feels the need of rest.

Mrs. Lucy S. Blanchard is well

Mrs. Emma Cash, president

Mrs. Alice Robinson

The retiring president of the State W. C. T. U. and the candidates for the place.

Mrs. Lucy S. Blanchard

known throughout Southern California for her interest in all that pertains to temperance affairs. She has been in the work even longer than has Mrs. Cash, having been connected with it twenty-five years. She has served as a delegate to many prominent temperance conventions, including the National W.C.T.U. Congress. She is president of the Los Angeles City Union, the largest union in the world, with more than 1000 members. Mrs. Blanchard's work among the young people is well known. For years she has been the leader of the Loyal Temperance Legion, five of which organizations have grown out of the Los Angeles City Union. Undoubtedly Mrs. Blanchard will be a strong candidate for State president.

Rev. Alice Robinson is the State evangelist of the W.C.T.U. and the wife of Rev. Mr. Robinson, formerly pastor of the West End Congregational Church. She has had much experience in the spiritual department of W.C.T.U. work.

Miss G. T. Stickney is the president of the Los Angeles County W.C.T.U. and has been recording secretary and held many other offices.

On Wednesday morning Mrs. Cash will address the convention, giving incidents from her experience in personal work in Southern California as a White Ribboner for a period of twenty-two years. Many Los Angeles women will take part in the convention, including Misses Hester T. Griffith, H. E. M. Patten, Mary E. Garbutt, L. M. Hutton and other prominent temperance workers.

DEATH LURKS IN OLD DATE.

Kiddies Must Have a New License Today.

Fate, in Dog-Catcher Guise, Seeks for Prey.

Then Sad Is the Howl of Pup and Its Owner.

At this point the dog catcher "gets busy."

Doggies which only yesterday walked with their noses in the air—aristocrats of the dog world—are now fugitives from justice—seeking dark cellars and shuddering at the sight of a covered wagon.

After today, the old dog licenses

matter out with the dog-license man. One of them insisted that she should have a license for \$1, in consideration of the fact that the man in front of her was only paying \$2 for his dog, which was a big St. Bernard, while here is a St. Charles spaniel. She said it wasn't fair that she and he should pay the same license. They told her that dog licenses didn't go by weight.

GET THE MONEY.

The man at the window was confided in many times to the effect that the law is an outrage, infernal shame, damned imposition, blaming robbery, larceny, blackmail, and then some.

Being used to it, he only waited until the storm went down, when he muttered, absently, "Two dollars, please."

Which was paid; oh, yes, they always pay it. At the height of the burning remarks about constitutional rights, outrages, etc., there would steal upon the vision of the irate dog owner a picture of a shame-faced horse drawing a cage filled with kiting pups, and a man perched on the top of the cage looking for more pups.

More than 500 licenses were taken out yesterday alone, netting \$1080. The harbor of refuge for this plume craft is a corral southeast of the city, where the dog catcher is lord high executioner supreme.

Every day at dawn, he sends out his wagons to prey upon the unsuspecting

THE PUBLIC SERVICE.

SUMMARY OF THE DAY.

Councilmen are reported to have under consideration a proposal to advertise the river-bed franchise for sale under the terms of the Broughton law.

The poll-tax man invaded the City Hall yesterday, and garnished the demands of 1906 city employees.

City Clerk Leland has raised a vigorous protest against the action of the Council in charging the furniture for the Council chamber against the custodian's account.

Because a Polish family could not speak English, neighbors near Florence annoyed them until life was a kind of martyrdom. Now the District Attorney is taking hold.

"Pete" Lohman, the old-time catcher, captain and manager of the Oakland baseball team, was sent to the State Hospital, suffering from paresis. His affliction has been pronounced incurable.

AT THE CITY HALL.

MAY YET BUILD IN RIVER BED.

RAILWAYS WILLING TO PAY FOR FRANCHISE.

Some Councilmen Apparently Inclined to Advertise Privilege Under Terms of Broughton Act—Could Reject All Bids If Price Was Not Satisfactory.

Mysterious rumblings, emanating from the big vault in the Clerk's office, have given rise to the rumor that the river-bed franchise is not resting easily in its crypt under the City Hall.

There is a singing on the underground wires that is a portent of preparation for affairs of unusual importance.

Quietly and without ostentation Councilmen are drifting back to their quarters in the Council committee rooms, deserted for several weeks after the first fiasco over a franchise in the river-bed.

Concurrent with the return of the Councilmen, Contractor Gilmore has appeared on the scene. His conferences with the legislators generally consist of a pantomime, in which the Councilman is charged against the wall, and Mr. Gilmore's left lower extremities his headless figure with extreme lead gestures. Brooks Howton appears to consume more of his time than any of the rest.

Under consideration by the committee of the whole is a petition asking that the Council be authorized to make an estimate of the cost of building a double-track railroad in the river-bed.

This petition was referred to the committee two months ago, and has never been reported back. It rests quietly in a pigeon-hole, along with a number of applications for spur-track franchises.

Councilmen discuss the river-bed franchise with about the same amount of freedom that a Mason displays when talking about the secrets of his lodge.

Some outsiders have favored building of the line by the city and leasing it to the railway companies. This does not meet with the favor of the Councilmen for the simple reason that they know that the money to build the line is not available.

The estimated cost of building the three miles of track has been placed at \$1,500,000. This would mean a big bond issue, and the people shrank at the last election that they are not in a mood to vote bonds for experiments.

When the franchise was last under discussion, H. E. Huntington made formal application for the privilege for the Pacific Electric Railway company. This application is now on file in the big vault.

During the week the suggestion has been made frequently in the City Hall corridors that the cheapest and best way to ascertain the value of the franchise would be to advertise it for sale.

Under the State law the Council cannot be bound to accept the highest bid in case of advertisement. It has the privilege of rejecting them all.

Just now there is a persistent demand for money for engine-house and fire apparatus. At the City Hall it has been suggested that by selling the river-bed franchise enough money would be received to build all the additional houses now needed.

Councilman Healy has gone East on a month's vacation. By reason of his constituents he is accused of dropping out of sight in order that he might not get mixed up in another river-bed imbroglio.

Next Monday the committee of the whole will report on the spur-track franchise applications now before it. There is a possibility that a report on the river-bed petition may also be made. Straws in the wind indicate, however, that the committee will take about three weeks more time before reporting on that, and that the franchise will be offered for sale about the middle of July.

The argument advanced in favor of selling this franchise is that the road would interfere with traffic in no way, but would offer a right of way through the city for cars running from Pasadena and the San Gabriel Valley to the seashore. It would relieve congested traffic on Main street, and in that way would be an important improvement.

The value of the franchise is listed all the way from \$50,000 to \$250,000.

OBJECTS TO TRANSFER.
NOT CITY CLERK'S FURNITURE.

City Clerk Leland filed a vigorous protest yesterday against the action of the Council in assessing the cost of furnishing the Council chamber against the custodian's fund.

Under the old city charter the City Clerk is custodian of the municipal building. When the last budget appropriation was made the City Clerk was placed in charge of the custodian's fund. By dint of close figuring Mr. Leland has been able to keep this fund well within the appropriation.

Yesterday he received from the Auditor a statement showing that the custodian's fund was overdrawn. Investigation showed that this was due to a debit of more than \$4000 for furnishing the Council chamber.

Leland promptly objected. He said that he had nothing to do with the purchase of that furniture, and that it is contrary to all precedent to assess a department with bills for which it is liable in no way.

All the furniture and other furnishings were purchased by the Building Committee of the Council on requisition.

tion. Leland wants to know by what authority this expense is assessed against him.

After the first of the fiscal year the custody of the municipal building will devolve on the Department of Public Works.

MANY GARNISHMENTS.
COURTHOUSE INVASION.

Three deputies from the County Assessor's office stationed themselves at the cashier's window in the City Treasurer's office yesterday and proceeded to levy a garnishment on the demand of city employees for poll tax.

During the day the invaders collected more than \$2000. This means the garnishment of 1500 city employees.

From the elective officers to the City Hall janitors no one is immune, except the fortunate few who were beyond the age limit. It was the annual first of June garnishment.

Demand on the Treasurer's office was especially heavy. When ready final tally was made last night, the record showed that \$172,764.58 had been paid out of this sum, \$169,236 went for current expenses and \$3547.87 for payment on bonds.

Companies Are Coy.
Representatives of the Los Angeles Gas and Electric Company and the Pacific Light and Power Company were before the Board of Public Works yesterday to ask that they be exempt from lighting Hill and Main streets be let in sections.

The ornamental lighting system on each of these streets is ready for the illuminant, and the board expected to advertise each street as a whole.

The board given by the companies for division into sections is that neither is equipped with conduits to light an entire street, and neither cares to build new conduits for the ornamental system only.

The board prefers to let each contract entire, but it will probably adopt the compromise of letting the contracts for bids both in sections and as a whole.

AT THE COURTHOUSE.
SEEK SALVE FOR INSULTS.

POLISH FAMILY AT FLORENCE MADE A BUTT OF.

Brooksey and His Wife and Child Appeal to the District Attorney for Protection, and Now Some of the Offenders Are to Be Jerked into Court.

People of small minds take it as a personal slight that foreigners cannot talk the English language, and they are a row on at the little suburb of Florence in consequence.

Over a year ago V. Brooksey, his wife and little girl, arrived in Los Angeles. They were poor, but heard that poverty was no disgrace in this country, and that while every man that would work could get a show, the tenderest consideration was shown to women and children in this great country. But, heged in by the bonds of language they discovered that there was a mistake in what they had heard, and now it is up to the District Attorney.

Brooksey went to work just as soon as he got here. He wasn't particular what work it was, so long as he was paid. He wanted to get the hang of things, and at the same time contrive to master the language. He did well and even managed to save a little money. It was very little, but he was determined to get on with that end in view he and his wife made up their minds that they would buy a little piece of land somewhere and do away with the rent proposition at all events.

After much searching a lot was found near Florence. They paid \$10 down and began paying the single sum of \$10 a month, and were happy in knowing that very soon they would actually be owners. And so it went. When the trouble that had the Brooksey family at times regret that they had ever crossed the ocean.

The neighbors, instead of being courteous and kind to the foreigners, envied by new and strange surroundings, started out to make them the butt of their jokes. Mrs. Brooksey was trying to add to the slender income by keeping chickens—well, every one knows that. Any article of household use left outside would be missing when Mrs. Brooksey went to get it. To cap the climax of insult when the Polish mother or her little girl would show themselves outside there was always some one around to call them names, so that both mother and child would often return to their humble home in tears.

The husband came to the city every day to his work and he saw none of these happenings, and for a time his wife didn't tell him. But the neighborhood surroundings became such that the woman could not stand it any longer, and more particularly as the little child was being terrorized.

When Brooksey heard what had happened he determined to take the matter to those that knew what to do. He had been in this country long enough to learn that every man and woman has a right to enjoy their home undisturbed. He appeared in the District Attorney's office with his wife and child, and through an interpreter told his story. Mrs. Brooksey broke down and cried bitterly as she told of the insults heaped upon the family in the new country where they had hoped to find peace. The flaxen-haired little girl—who speaks English already—looked more dejected than ever as she tried to comfort her mother.

Deputy District Attorney McCormick told her where the trouble lay, and that he would see to it that she and her children were protected. He said that he would see to it that she and her children were protected. He said that he would see to it that she and her children were protected.

Nevertheless they left the office comforted, for they had been instructed to find out the names of the persons who had either stolen from them or had interfered with them in any way. With the required names in his possession McCormick will issue complaints against the offenders and see to it that they are brought to a severe account.

MONTHLY REPORTS.
HOLIDAYS AFFECT RECEIPTS.

The extended holidays have affected the business at the Courthouse to such a degree that the county is several thousands of dollars poorer than it otherwise would have been.

County Clerk Keyes filed his report for the month of May yesterday and showed a total amount received in fees of \$290.59. This sum is about \$1200 less than during the same period last year and less than during the month of April. The receipts were made up of the following items: Probate business, \$192.60; civil, \$174.25; miscellaneous, \$74.65. The disbursements were: To credit of the Law Library Fund, \$541; salary fund, \$523.50; total, \$2980.50.

The usual monthly count of the money on hand on the county treasury was made yesterday, and the money

found was: Gold, \$455,185; silver, \$554,110; currency, \$115; checks and drafts, \$78,653.70; State warrants, \$138,752.47; deposited in twenty-eight banks of the county, \$1,723,000; total, \$2,390,798.82.

By comparison with previous months the receipts in the office of the County Recorder was not so great as might have been anticipated, but had there been no holidays the record would have undoubtedly been broken. During the month of May the large sum of \$14,048.80 was taken over the counter in fees.

KING "PETE" A WRECK.
BALL MAGNATE COMMITTED.

From being one of the kings of the baseball diamond to being an inmate of a hospital for the mentally afflicted is the descent made by "Pete" Lohman, the old-time catcher, manager and captain of the Oakland Baseball team.

And the worst of it all is that there is no hope of recovery. Lohman is now in a mental hospital, and his condition is such that he is unable to take care of himself.

Yesterday Lohman figured in a pitiable spectacle in marked contrast to the days when the multitude rose up to applaud the baseball player. He was brought before the lunacy commission with the muffs upon his hands, and the big grizzly fellow chafed at the restraint and was quickly quieted by his wife. In 1906 Lohman made his home at Ocean Park. It was stated that he was a drinking man, nor did he indulge in other forms of dissipation. The special disease from which he is suffering was ascribed to his strenuous life while engaged in making good his money—of the baseball diamond.

Last April Mrs. Lohman was appointed guardian of her husband. He lost his money, and was driven to the first instance his sense of location had apparently been obliterated. He was lost himself whenever he wandered away alone. He has imagined that he possessed super-normal powers and frequently wandered down to the beach and kneeling would pray for the Almighty to take him, his wife and baby.

On Thursday Lohman accused a visitor in the house of stealing \$100, and he locked himself in his room. He broke down the door and dragged her to the top of the staircase when both lost their footing and rolled down the stairs into the hall. The same evening he was taken into custody, and was committed yesterday by Judge James.

COURTHOUSE NOTES.
BREVITIES MISCELLANEOUS.

EX-OFFICIAL INSANE. Jacob Jerkins, an old-time German pioneer of the county, who arrived in Los Angeles fifty years ago, and was chief of police in the early days, was yesterday committed to the State Hospital at Patton by Judge James.

Six months ago Jerkins lost his wife and since that time he has been morose and lately it settled into acute melancholia.

WILLER ESTATE. Mrs. Carolyn C. Miller has petitioned for letters to the estate of her late husband, Clarence A. Miller, the attorney. The deceased died on May 1, and left an estate valued at \$65,000. No will has been found.

LURID DREAM. Jesse W. Gilman had a dream about a week ago in which he was a horror-stricken that he awoke up feeling a dizziness in the head. He knew that was a forerunner of mental upset, for he had suffered before. It was nearly midnight, but he arose and went out to find a doctor. He received medicine to sleep and returned for further treatment the following morning, but somehow got into an adjoining office and was ejected. In the midst of his confusion he saw a man in a white coat and he ran away with him. He was arrested. His mother was insane and at times he has had lapses when he didn't know what was the matter with him.

TALKED TOO MUCH. Maggie Connelly, an unmarried woman from Florence, was committed to the State Hospital by Judge James yesterday. While stopping at the Woman's Temperance Union building she was attacked in such a manner that she was sent for and at his instance she was examined on the insanity charge. The peculiarity of the case is that the woman incessantly talks, and in any or all subjects her tongue wags.

THE WIFE FOR HIM.
Description in "The Times" of Loving Young Mother Appeals to Model Bachelor's Heart.

"The woman who would rather suffer for work than and is apart from her baby is the woman I want for a wife." That is the sentiment of a Berkeley man who wrote to Mrs. Jefferson D. Gibbs to learn if the little blue-eyed mother, whose heroic resolve to stay near her child, was published in The Times ten days ago, was "matrimonially inclined." If she is, writes the man whose heart has been won, we could no doubt exchange satisfactory references, so please put me into communication with the little lady.

The Times story penetrated to Berkeley and found a response in the heart of the man whose letter Mrs. Gibbs, who took care of the mother and child, received yesterday. Here are some of the references the man gives for himself.

"I can get good references as to character and ability and have long had my eye open for a suitable matrimonial mate. I have not succeeded as yet. Of course I am somewhat particular myself, but the description given in this article is O. K. I am 35 years old and single, have a snug little business of my own, am very industrious, have no tobacco, liquor or, in fact, any pernicious habits. In fact, I am one man in a thousand, and I am sure that you should not, though I do say it, who wouldn't. There are no prospects of my being wealthy, too, for I have four good patentable ideas. All in all, I am strictly eligible. One thing is, I have always steered clear of matrimonial agents."

Mrs. Gibbs will write today to the home in Tropic where the blue-eyed mother and her babe are sheltered and advise her to correspond with this suit, who wants his name and address reserved among those who are engineering his happiness.

SCHOOL RECEPTION.
An exhibition of school work and recitation to patrons of the Twenty-third-avenue school was given yesterday from 1 to 3 o'clock p. m. Addresses were made by Prof. E. C. Moore and others.

Pennsylvania Railroad Information.
Call on or address M. F. Van Horn, district passenger agent, 115 W. Fourth street, Los Angeles, both phones.

HELD IN "BOND OF DESTINY."

UNITED STATES AND SOUTHERN REPUBLICS JOINED.

Senator Mejia, President of San Salvador Congress is Enthusiastic Over the Prospects of Commercial Co-operation Between This Country and the Latin States.

Federico Mejia, president of the Congress of San Salvador, Central America, is at the Alexandria Hotel, where he met his two daughters, who have been visiting in the vicinity of Palo Alto.

President Mejia is enthusiastic over the outcome of the approaching Pan-American conference to be held in Mexico, and he has been visiting in the vicinity of Palo Alto.

"The United States and the Central American republics have been so long at peace that it will pave the way to a vast increasing commerce between the republics of Central America and the United States."

"England and Germany almost completely control this export and import trade from the Central American republics," said President Mejia yesterday. "This has been possible only through the dilatory attitude of the United States," he continued. "The home markets of the United States have been so great that they have absorbed the entire output of the country and demanded more. This has been the greatest misfortune of the United States."

"During this time the manufacturers of the country have been steadily increasing their output, and for the first time they have taken steps toward securing the rich markets in my country."

"It all belongs rightfully to the United States. That is, it is but natural that the United States should reap the benefit of these markets, owing to the closeness of the countries. Already American firms are gaining footholds and new almost all of the agricultural implements used in Salvador are brought from the United States."

"There is but one line of steamships between Central America and the United States and that is the Pacific Mail Steamship Company. Their boats make landings where they please and are very arbitrary about taking freight."

"The revolution now in progress in Guatemala, I know nothing of, only that San Salvador is not concerned in the matter. The United States and other countries and intends to remain so. We do not mix in these troubles, and our President Escalon wired President Roosevelt of your republic that we were not concerned in the trouble and intended to remain neutral."

A great future for commerce between Mexico, Central America and the Pacific Coast of the United States is predicted by President Mejia. "When the steamship companies learn that there are fortunes to be made in developing this trade between the above countries, they will gladly build ships and bring Central America and this country closer together."

Mr. Mejia denied the report that the Central American republics were antagonistic to the granting of the Panama Canal strip to this government. He said that while a number of trouble breeders, who see in any disturbance an opportunity to better their own fortunes, are crying the encroachment of the United States upon the Central American republics, the better class know that there is a bond of destiny between the republics of the Western Hemisphere.

While he would not predict a closer condition of affairs than a bond of destiny," Mr. Mejia said that there was ample grounds to expect that there would be a coalition of interests, if nothing more, between the United States and all Central and Southern American republics.

Conditions were never better than at present, in the little Central American republic of which Mr. Mejia is an official. He said: "I have the smallest state in Central America, but the most densely populated of them all. We are the controlling power in the group of small states adjacent to ours. We are peacefully inclined and every acre of soil in our country is under cultivation, and is productive."

Mr. Mejia and his daughters will remain in the city for several days, and will spend some time at San Diego before leaving for their own country.

Houses in Demand.
A "To Let" advertisement of twenty words, inserted in the Sunday Times at a cost of 10 cents, will rent your house, apartments or room easily. The demand is great. Telephone it, day or night.

Investigate It Now

It is almost an imperative duty to investigate the Pianola Piano, for it means so much to every home it enters. If you count yourself as a music lover you cannot afford to miss the opportunity offered you in this instrument, and its price is so reasonable that everyone can afford it.

We take other pianos in part payment, allowing fair valuation for them, and we arrange very suitable terms with responsible parties.

The genuine METROSTYLE PIANOLA (the world's standard player) is the instrument which has been incorporated into the three well-known high-grade pianos—

SANTA PAULA IS DEFEATED.

'POLY' HIGH BASEBALL TEAM WINS CLOSE GAME.

Semi-Final Contest Proves to Be a Very Good One—Pitching Is Up to the Coast League Standard—Costly Error, a Steal and a Timely Single Finish the Struggle.

Polytechnic High, 1; Santa Paula High, 0.

A lot of people think High School boys can't do anything, but yesterday they proved them wrong. The Polytechnic High team, who were wearing blue trousers, gave the Santa Paula team a very good game. The game was played on the Polytechnic grounds, and the Santa Paula team was very good. The game was a very close one, and the Polytechnic team won by a score of 1 to 0.

The contest was between the Santa Paula High School team and the Polytechnic High School team of this city, and they played the game as if their lives depended on the result. Considerable of their school honor did hinge on the result, for the Santa Paula team this afternoon for the High School championship of Southern California. Polytechnic won yesterday, but the game was so close that the losers retired with just about as much honor as the winners, and so every one must have been satisfied.

The game was on the St. Vincent grounds, Grand avenue and Washington street.

Either the batters in the High schools are weak or the pitchers are strong, for there were but eight hits made by both teams, and there was nothing to choose between "Poly" Elliott and Santa Paula Cooper. Elliott is a trifle more "showy" in his delivery, while Cooper is cool and deliberate, and takes a desperate chance every time he pitches of striking his arm off. He has a fearful wind-up, and the twenty school girls that watched him breathed fear for fear he would twist his arm off and throw it at the batter instead of the ball. He is a peach, all right, but had poor support from his shortstop, Taylor, at a critical time, and lost the game in the last half of the ninth inning, with but one out.

As a sample of Cooper's work, it is stated that none of the batters reached first base until after two were out in the last of the fifth, and then Cooper gave the only pass of the game. Winding up of the game, followed with high grounder to Taylor, who juggled it, but Lane, who was passed, overran second base and was touched on a throw from Taylor to Nicely. The first Poly batted came in the sixth inning, when Elliott bunted safely to third base, but died there for the next man was an out.

For Santa Paula, no one reached first base until after two were out in the third, when Taylor swiped one to left; but was out stealing second base. Then in the fourth, with one out, Nicely and Cooper both singled to right, but could not get to the plate. Elliott steadily dogged after that, and Santa Paula boy could get no hits.

This was the kind of ball these boys played, and it would have done the hearts of the batters of Santa Paula to see them perform. Nicely and Cooper were the stars in the fielding line, and yet Taylor made several pretty catches of short fly balls back of second base. There was no hitting to speak of, and it was hard to knock the ball out of the diamond.

After playing nip-and-tuck for eight and one-half innings, to the cheers and yells of several hundred excited school boys and girls, the end came quickly in the last half of the ninth. Lafferty was the first up, and fanned out. Then Cooper smacked a nasty bouncer to Taylor, who juggled it. Cooper stole second, and at a hit and run signal scored when Taylor dropped a short fly back of third base for a single.

A hundred or more St. Vincent boys rooted for Santa Paula from the west bleachers, and as many Poly rooters, both girls and boys, were on the other side of the field, and all kept themselves noisy. Each crowd had horns and megaphones, and as they refused to take the noise outside the grounds, the players got it all.

First base on balls, of Cooper 1.
First base on errors, Santa Paula 1.
Struck out, Cooper 3; Elliott 3.
Double plays, Nicely and Richardson.
Time—1:11.
Umpire—Thacker and McGowan.
A one out when winning run scored.

PACIFIC COAST LEAGUE.
SCHMIDT LOSES ANOTHER.
(BY THE ASSOCIATED PRESS—P.M.)
SEATTLE (Wash.) June 1.—After making a commanding lead early in the game Seattle had a hard time to win from Los Angeles today. A muffed fly by C. Hall in the fourth, followed by Dillon's double and two singles gave Los Angeles a chance to tie the score. Hits by Kane and R. Hall in the fifth, coupled with a bad throw by Schmidt gave Seattle the winning run. Score: Seattle, 4; hits, 7; errors, 2. Los Angeles, 3; hits, 7; errors, 1. Batteries—Jones and Hansen; Schmidt and Bliss. Umpire—Ferrine.

MANY ERRORS MADE.
(BY THE ASSOCIATED PRESS—P.M.)
PORTLAND, June 1.—Callif was up in the air when the game opened and after filling the bases allowed two men to walk. Jud Smith contributed another for the visitors by means of an error, but notwithstanding this auspicious beginning, the visitors failed to score again. Jim Smith, the visiting pitcher, was pounded hard by the home team and was accorded mediocre support. Score: Portland, 6; hits, 11; errors, 4. Oakland, 5; hits, 7; errors, 1. Batteries—Callif and Donahue; Jim Smith and T. Hackett. Umpire—Kneil.

SALES' WILDLNESS FATAL.
(BY THE ASSOCIATED PRESS—P.M.)
OAKLAND, June 1.—The second in-

Santa Paula High School baseball team, defeated yesterday by Los Angeles Polytechnic High.

ning was disastrous to the San Francisco team today, Sales being responsible for the ill luck of his side. After giving Fresno a run in the opening inning he went to pieces in the next and walked four batters. Henley was then put on the slab but before the inning closed four Fresno runs were scored. Score: Fresno, 6; hits, 6; errors, 2. San Francisco, 3; hits, 4; errors, 4. Batteries—Walters and Hogan; Sales, Henley and Wilson. Umpire—McDonald.

BOY PLAYERS FORM LEAGUE.

FIFTEEN TEAMS ARE IN THE NEW ORGANIZATION.

Schedule Provides for Twelve Games for Each Club and Season Is to Continue for Three Months. Banner, Cup and Purse for Winners. Eight Games for Sunday.

Not to be outdone by the professional and semi-professional ball players, the amateurs of the county have organized the Los Angeles County Baseball League and propose to give the suburban towns baseball every Sunday and to show that they intend to cover a large territory it is stated that there are fifteen teams in the league and in all probability another one will be included so as to provide against one team having an off Sunday.

F. Perkins is president of the league and A. Ramsey is secretary, and the schedule provides about three months play, with twelve games for each team. If no suitable sixteenth team can be secured, one of the city teams will be called upon to play with the old league team, for the boys declare they will have every team in the league in action each Sunday. The names of the teams are as follows: Newcastle, Alhambra, Keystone, Watts Stars, Downey, Jevnes, Bailey & Schmitt, Monrovia, Brents, Dolgeville, Christians, Pasadena, Inglewood, Boyle Heights Stars and the Hillslides.

A regular admission fee will be charged to all games, of which 10 per cent will go toward the salary of President Perkins. The remainder will be put into a purse to be given the winning team at the end of the season and this sum will be fattened by the payment of \$1 by each team. To add to the interest it is understood that a banner and silver cup will be put up for the winners.

Eight games will be played Sunday, one each at Watts, Alhambra, Arcadia, Monrovia, Inglewood, Pasadena, Dolgeville and at the Salt Lake grounds over near the Salt Lake depot in this city. The boys are taking a great interest in the league and it promises to be a successful one. All the players are real amateurs, and not one of them will receive a cent for his services.

AMATEUR'S GAME.
The Harper & Reynolds baseball team will play the Title Guarantee and Trust Company nine on the grounds of the University of Southern California this afternoon, and a good game is promised. Both teams will be well represented in the box and the field has been doing excellent work in the last few games. Wyman, the fast amateur pitcher, will twirl 'em to Ackers for the Titties, and Harkness and Cobath will attend to the battery work for the Harper & Reynolds.

These amateur teams are playing great ball these days and number in their line-up material that should be drawing salary on the professional ranks.

The line-up for today will be as follows: T. G. & T. C. Harper & Reynolds. Wyman, pitcher; Harkness, catcher; Ackers, first base; King, second base; Reiner, short stop; Nuell, third base; Gabe Flitter, left fielder; Fallon, center fielder; Hernon Lyons, right fielder; Stockton. The game will be called at 2:30 in the afternoon.

HANDBALL PLAY BEGINS.
Garbutt Gets His from Sam Hall, and Many Competitors Run Swift Race for Booby Prize.

The handball tournament of the Los Angeles Athletic Club began yesterday, and brought out many prominent "old" artists, such as Frank Garbutt, Loomis, Hill, "Pink" Hedderly, et al. The tournament was enlivened by a bantering gallery, that had the baseball bleachers skinned a mile when it came to giving up advice to players.

Frank Garbutt has donated a handsome silver and gold loving cup, which will be a perpetual challenge trophy, and goes to the winner of the tournament. There will be second and third prizes in the shape of silver and gold trophies, and a consolation leather medal for the "punk" player of the outfit. There are several candidates for this, and rivalry is keenest in this division.

In the play yesterday afternoon and last night the results are as follows: Welcome beat Woods, 21 to 9; Day Dunnigan beat Parsons, 21 to 11; Sam Hall beat Frank Garbutt, 21 to 12; Gus D. Hill beat R. A. Dunnigan, 21 to 1; Alimstoy beat "Pink" Hedderly,

21 to 3; Loomis beat Gus D. Hill, 21 to 14.

Play will continue tomorrow at the club courts, and some great games are looked for.

COLLEGE TENNIS PLAY.
Students of U.S.C. and Pomona Contest This Morning for Honors of the Two Colleges.

To prove to a doubting world that two lions can lie down together and lick the wounds in their claws, made by years of quarrelling, Pomona College and U.S.C. will play this morning for the tennis championships of the two institutions, the matches to be on the U.S.C. courts, beginning at 9 o'clock.

There will be four matches in men's singles and doubles; ladies' singles, and mixed doubles, and the entries in each event are as follows: Men's singles, Thomas, Pomona; Brown, U.S.C. Ladies' singles, Miss Miller, Pomona; Miss Conger, U.S.C. Men's doubles, Thomas and Bryant, Pomona; Brown and Crippen, U.S.C. Mixed doubles, Miss Baker and Thomas, Pomona; Miss Conger and Brown, U.S.C.

At the U.S.C. courts next Thursday afternoon the same sort of play will be on between U.S.C. and Occidental.

LATONIA RESULTS.
CINCINNATI, June 1.—Latonia results: Six furlongs: Lidwinda won, Oak Grove second, Tri-Sauce third; time 1:15. Seven furlongs: Golden Mineral won, Self Reliant second, Bitter Brown third; time 1:28 1-5. Seven furlongs: Carew won, Zinda second, Matador third; time 1:27 3-5. One mile: Colonel Jim Douglas won,

Cotton Town second, Belindian third; time 1:59 1-4. Four and a half furlongs: Dainty Dame won, Bitter Miss second, Levin third; time 1:35 1-5. Six furlongs: Polaris Bergeries won, Nona Lucille second, Intense third; time 1:41. One mile: The Englishman won, Careless second, Iola, third; time 1:41 1-5.

New York Races.
NEW YORK, June 1.—Fliptrap, favorite at 1 to 2, won the Claremont Handicap, six and one-half furlongs, at Belmont Park today, equalling the world's record of 1:18 2-5, held jointly by Martinmas and Mineola. Results: Seven furlongs: Samson won, Yalagail second, Old Faithful third; time 1:27. Four and a half furlongs, selling: Straight-Mexican Silver won, J. C. Cove second, Greens third; time 1:25 3-5. The Claremont Handicap, six and a half furlongs: Fliptrap won, Dolly Spanker second, Oxford third; time 1:18 2-5. One mile, selling: Ginnette won, King Cole second, Lella third; time 1:33 2-5. Mile and a sixteenth: Calmgorn won, Pretension second, Bad News third; time 1:45.

Keystone II Wins Oaks.
EPSOM (England) June 1.—The race for the Oaks Stakes of 5000 sovereigns for three-year-old fillies, mile and a half, was won today by Keystone II. Gold Rich was second and Snow Glory third. Twelve horses started. The winner was ridden by Maher, the American jockey.

ANOTHER JOLT FOR SHARKS.

SURPRISES FEATURE OF TENNIS TOURNAMENT.

Bundy and Gorham Take Measure of Braly and Wayne—"Pop" Way Still in Game and Lands in Finals. Young Blood Adds Elitism to Game and Arouses Interest.

Another surprise was sprung yesterday afternoon in the open tournament of the Southern California Lawn Tennis Club, when Bundy and Gorham defeated Braly and Wayne in straight sets, 6-3, 7-5.

Both Bundy and Gorham lobbed accurately and smashed hard. Braly played a steady, hard game, but Wayne seemed to have an off day and did not play his usual game. The tennis was fast at all times, and there were many good rallies, which brought forth applause from the small gallery watching the play.

Bell and Way had little trouble in disposing of Kenney and Brown, once they got started. The first set went to deuce and vantage, but after that the old team pulled away from the youngsters.

Bell, who was to have played Braly, did not reach the courts until late and this match was postponed until this morning. The winner of this match will play Warland in the afternoon, and the finals in the double, between Bell and Way and Bundy and Gorham, will also be played.

The scores yesterday were as follows: Bundy and Gorham beat Braly and Wayne, 6-3, 7-5. Bell and Way beat Kenney and Brown, 7-5, 6-2. Hal Gorham, the High School youngster, has shown great form this year in tennis play, and although "Pop" Way took his measure on the opening day of the tournament in the men's singles, he has more than covered himself with glory in the doubles.

These youngsters have been closely watched by tennis enthusiasts, and

THE BENGUET ROAD.

A Remarkable Piece of Engineering Recently Completed in Philippines. Wettest and Mouldiest of Climates and Steepest of Cliffs.

WHEN we got up in the morning, the first thing we had to do was to scrape off the mould which had formed over night on our shoes. Kid gloves we had to keep in air-tight, sealed glass jars, like canned cherries, to prevent their moulding. Pins and needles rusted almost while you looked at them, if exposed to the air. Day after day, night after night, we lay in our darkened rooms, wearing as few clothes as possible, panting for breath, and listening to the agonized squealing of the pigs, whose throats had been cut by our little brown brothers, and the animals left to bleed to death, the Filipinos believing that that process of slaughtering adds some obscure virtues to the resulting pork.

This statement, made by an American woman recently returned from the Philippine Islands, furnishes the real reason—if one reads between the lines—for the building of the great Benguet road, which runs from the seaport town of Dagupan up to the mountain village of Baguio, thirty-five miles away in the interior of the great island of Luzon.

It was the great heat in Manila and the lowlands of the island which made it absolutely necessary to provide some easy and safe means of communication with the cooler and more salubrious country of the interior. Now the Benguet road has been completed, and Maj. L. W. V. Kennon, the officer in charge of its construction, has returned to the United States, having full knowledge of the fact that he modestly withheld it—that he conducted a successful conclusion one of the most remarkable engineering works of recent years.

THE BEGINNING.

Dagupan, the town from which the Benguet road starts, is connected by a railroad with Manila. The distance is about 120 miles; and as the means of conveyance are modern, invalids can make the journey without distress. From Dagupan to Baguio, a distance of about thirty-five miles, runs the Benguet road through one of the most wild and picturesque countries on the face of the globe. Thanks to American engineering ingenuity, the Benguet road is safe and smooth, notwithstanding the fact that it skirts cliffs, crosses mountains, dips and ascends, and makes its way through a country so rough that when the American engineers first looked on its face they were inclined to doubt that a "divided" highway was possible.

The Benguet road follows a route for the first seven miles of its course, the Bued River cañon to Baguio. In the words of the superintendent of the work, the descriptions of the Bued River cañon as given before the work of road-building began, "fell short of, rather than exceeded, the truth as developed by the actual work of construction."

The first engineer who had charge of the work seems in a measure to have realized the difficulties. He reported that after the line once entered the mountains, the cliffs, landslides, steep slopes and constant rain were the order of things, and that these natural characteristics would require masonry, dry walls, trestle bridges, extensive rock cuts and large fills.

Another engineer, in writing of conditions at a certain point of the projected road, said in effect: "Slopes here stand at angles of such excessive steepness that the slightest disturbance of their natural condition starts a slide that may not check itself until hundreds of thousands of yards of earth, broken rock, and trees have come hurtling down."

Entering the Bued River cañon, the plan of building was to keep the roadbed, as far as possible, above the reach of high water and on the foundation of solid rock. Because of the instability of ground, which to the eye appeared to be absolutely firm, there were places found in the cañon where solid foundations could not be secured and where landslides were inevitable. The existence of such places necessitated carrying the road across the river to some place where solidity was assured. As a result of this constant crossing of the river, bridges became necessary at short intervals; and, as a matter of fact, there are eleven bridges over the Bued River in a distance of many miles, with numerous smaller structures crossing the tributaries of the main stream.

FOREST STRIPPED AWAY.

In order that the road might be safe, it was necessary to remove from above the grade vast quantities of loose rock and earth, and at times whole forests were stripped away. Naturally the cut made for the roadbed increased the danger of landslides, notwithstanding the fact that everything loose was torn away by the workmen to a point where the ground seemed absolutely stable. One place in the cañon was found where the surface seemed so treacherous that the cliff was cut back and stripped to a point nearly 300 yards above the line of the grade. Here the cañon walls seemed equally treacherous on both sides of the river, and the selection of one side for the roadbed was made only because the mountain on that side had less elevation than it had on the other.

In blocking out the roadway, Maj. Kennon and his engineers adopted the rule of removing only enough of the earth and rock from the slopes to make the road safe for travel during the dry season. No permanent work was attempted until the roadbed and the slopes had been subjected to the effects of erosion during at least one rainy season.

One must experience a rainstorm in the province of Benguet to get an idea of what a heavy rain really is. In one day of last July there was a precipitation of eighteen inches along the highway.

At one point of the road, to quote from Maj. Kennon, "the cliff required stripping to a height of 512 feet to

obtain to a height of 1 to 1, which was thought the least slope allowable for the ground. To effect this in the dry season, Copper King Creek was diverted and brought by a trough to a point where the cut was to be made. Thousands of tons of loose earth and rock were brought down by this hydraulic method, and formed a talus reaching far into the river bed. Manually, to clear this out with pick, shovel, bar and dynamite, would be a costly operation.

"A provisional road, therefore, was made over the debris, which was used during the dry season. The first heavy rainfall produced a flood which cleaned the place expeditiously, completely, and at no cost to the government. The rock on which the permanent road is built was exposed, and the ravine of Copper King Creek, which had been filled with the fallen boulders, was entirely cleaned and made ready for the bridge planned to cross it.

"A rainy season was especially valuable in this way and also in others. Riffs and fissures across the roadway, which had been filled by falling rock when the road was blocked out, were cleaned out by floods; and the permanent bridges, culverts or walls subsequently were constructed on solid rock foundations."

THE REQUIREMENTS.

Under the requirements set by the Philippine Commission, the line of the road was laid out in curves and tangents, the grades being kept within the limits practicable for electric traction. The maximum curvature corresponds to a radius of eighty feet, but this occurs in one place only. There are no reverse curves, a tangent at least equal to a car length being placed between the curves. The line was laid out with spiral easements. Upon the permanent line there are no adverse grades, but a few short ones occur in the approaches to temporary bridges. The gradient has a maximum of 9 per cent., and the longest stretch is less than one mile in length. The bridges over the Bued River are all temporary structures. There was necessity for the immediate use of the road for wagons; and so bridges of a temporary character were built, with a view to replacing them with permanent structures when the electric railway was built. This description of the road was prepared by Maj. Kennon recently in Washington.

"In the first bridges, the portal was hinged to the cap; but in the later bridges the cap of the trestle and all of the portal were drift-bolted together. Two double one-inch steel cables were used, one on each side, with suspenders of one-half-inch steel cable doubled. Each cable and each suspender were spliced end to end. The cables passed around large blocks, which were adjustable by screw-threads on the rods connecting with the anchorages.

"For anchorage, wrought-iron bars one and a quarter inches in diameter were let into holes of about fifteen feet in depth drilled into the solid rock. A chamber was made at the foot of each hole by the explosion of a small quantity of dynamite. The bar was split at the end and grouted in this chamber, and the hole grouted with cement mortar. The bars were bent to the angles required, and bolted firmly to a heavy beam. Finally, they were imbedded in cement.

"The steel cables were not available, screw-threads were cut on the bars, and they were let through a steel I-beam and secured by a washer and nut. This was buried in a heavy bed of concrete and rock. The bridges were provided with lateral bracing under the floor; the stringers of 12x12 lumber were long, were made to overlap, and were spiked together to assist in reducing undulation under live loads; the side rails were in the form of a Warren truss to distribute the load locally. The spans vary from 110 to 185 feet. The time of construction was about six days."

A BABEL.

Men of forty-six nationalities worked on the Benguet road. The foremen were, in most instances, Americans, though two or three of them were Irishmen. The laborers were Filipinos, Chinese, Japanese, Italians, Spaniards, Hawaiian, Mexicans, Russians, Germans, Irish, Englishmen, Frenchmen, Swedes, Africans, and representatives of many other peoples, including several North American Indians.

These men were provided for in camps. All the nationalities represented worked harmoniously together, and there were few instances of crime noted during the entire time of the building of the road. Every precaution was taken to prevent sickness. The sanitary arrangements of the camps were made with great care, and the hospitals provided for the sick were in charge of army surgeons who looked after the injured and the ailing with the same care that they exercised when in the field with troops.

The very nature of the work on the Benguet road necessitated a great amount of cliff-climbing work that required a steady eye and cool head. The reports of the officers in charge of the work showed that the Japanese were superior to the other races in the work of peace. One of the lessons which has come from the completion of the road to Baguio is that the Filipino, taking into consideration his wage and his ration, was the most economical laborer employed for the ordinary work. The officer in charge ventures the opinion "that the Philippine Islands may be developed by native labor alone under suitable conditions. Time, tact, patient instruction,

Maj. Kennon, although a junior officer of the army, had been in command of a brigade in the northern campaign of Maj.-Gen. Lawton. He brought to the work of road-building nearly 2000 members of the tribes in whose country he had been campaigning. The battles with them over, he asked these men to aid him in the work of peace. One of the lessons which has come from the completion of the road to Baguio is that the Filipino, taking into consideration his wage and his ration, was the most economical laborer employed for the ordinary work. The officer in charge ventures the opinion "that the Philippine Islands may be developed by native labor alone under suitable conditions. Time, tact, patient instruction,

A point of difficult construction. Typical of views along route of Benguet Road.

tion, and fair dealing will accomplish much; the personal equation enters very largely into the problem."

The Benguet road was completed within the time set by the officer in charge. Doubt was expressed by members of the Philippine Commission that the work could be finished within the months allotted. The laborers, as has been said, were well treated; and when the work was passed along from camp to camp, it was found that the road could not be built by a certain date; the men—even to the last Chinese—were seized with a sudden quickening desire for renewed effort.

There was rivalry between the laborers of the different camps as to which gang should accomplish the most work within a given time. It was a labor of love; and on the day set for the completion of the work, Maj. Kennon drove a wagon over the finished road from Dagupan to Baguio.

LARGE RANCHES IN NEW HANDS.

SANTA BARBARA COUNTY LANDS TO BE DEVELOPED.

Three Hundred and Fifty Thousand Dollars Reported Paid for Thirty-two Thousand Acres, for Colonization and Agricultural Purposes, by Local and Other Interests.

A deal was consummated yesterday by which the old rancho San Carlos, of Santa Barbara and Cadiz de los Pinos, lying twenty-eight miles north of Santa Barbara, were transferred to Los Angeles and San Francisco interests, which propose throwing the lands open to colonization.

There are 32,000 acres involved in the transaction, and the consideration is named as \$350,000. The transfer was made by the Santa Ynez Land and Improvement Company, and the new owners will be known as the Santa Ynez Valley Development Company.

The land lies in the Santa Ynez Valley, on the line of the Pacific Coast Railway, being served by the stations of Los Olivos and Santa Ynez. It extends from the fertile valley to the foothills, and is said to contain much rich agricultural as well as oil-bearing lands.

A number of representatives of eastern railroads in California are interested in the new company, and it is said that an endeavor will be made to secure the cooperation of all foreign lines in an extensive colonization scheme for the exploitation of the agricultural lands involved. Local parties interested in putting the deal through are the authority for the statement that Henry J. Crocker of San Francisco and Maurice Casey, also of that city, are in the new company.

Other interested parties are said to be J. Conrad and J. Rupert Johnson, Dr. W. A. Lamb, Fred Braden, Mark Jones, Dr. Jarvis Barlow, F. H. Edgerton, general western agent of the Rock Island, at San Francisco; B. F. Coons, commercial agent of the Rock Island, in this city; Charles Hall, assistant general freight agent of the Rock Island, at St. Louis; and F. Van Vranken, division superintendent of the Pacific Electric Railway.

Negotiations for the transfer of the property had been pending for several months, and were considerably delayed by the San Francisco fire. It is said that the San Francisco interests will be devoted to the exploitation of the oil-bearing lands, while the railroad and Los Angeles real estate men involved will push the colonization end of the project.

THE GOVERNOR'S PROMISE.

President Butler read telegrams from T. L. Ford and his answer to them. Mr. Stanton had been quoted as saying that the gates should not be opened and the suggestion of Los Angeles should not be adopted.

References to Senator Pendleton were stricken from the minutes, but references to Mr. Stanton were allowed to stand.

THE GOVERNOR'S PROMISE.

President Butler read telegrams from T. L. Ford and his answer to them. Mr. Stanton had been quoted as saying that the gates should not be opened and the suggestion of Los Angeles should not be adopted.

GETTING INTO CLOSER TOUCH.

Consolidation Commission Invites Co-operation.

Harbor Towns Invited to a Special Meeting.

San Pedro Receptive, Long Beach Not Obstinate.

Last night's meeting of the City and County Consolidation Commission was devoted mainly to getting into touch with the cities and towns of Los Angeles county that may be asked to decide whether or not they wish to be included in a consolidated city and county, and to removing the erroneous impression that the commission is working out a plan without reference to their views.

President Butler explained that the work of the commission had not progressed to matters of detail, because the legal questions involved in the taking of preliminary steps had absorbed the time of the Law Committee, and until those questions were settled, no plan of government could even be sketched out.

Delegates from San Pedro and Wilmington attended the meeting, took part in the discussions and arrived at the conclusion that they were in favor of the consolidation of the purposes of the commission.

At the opening of the session, John W. Mitchell asked that all references to the minutes of the previous meeting be stricken from the minutes of the present meeting. He said that the minutes of the previous meeting had been stricken from the minutes of the present meeting.

Secretary Fleming said he had heard of the suggestion of Mr. Stanton, but he said that the gates should not be opened and the suggestion of Los Angeles should not be adopted.

References to Senator Pendleton were stricken from the minutes, but references to Mr. Stanton were allowed to stand.

San Pedro should not join Los Angeles.

PROCESS OF CONSOLIDATION.

Mr. Haas explained, for the information of towns deeming themselves ignored that the commission had not held formal consultations with any other municipalities, except with San Pedro on the harbor question, and that in reply to Mr. Storor's questions, he said that the work of the commission had been confined mainly to the legal questions involved in the taking of preliminary steps had absorbed the time of the Law Committee, and until those questions were settled, no plan of government could even be sketched out.

THE GREAT

Wreck Sale

Many Pianos a total loss, many others seriously injured, and very many more but slightly marred.

The terms of our settlement with the railroad companies gives us a large number of Pianos at FIFTY CENTS ON THE DOLLAR. They are good Pianos, too—in perfect condition except for a few scratches on the cases. The badly injured were consigned to the scrap heap, as you can see by the mass of wreckage at our retail store.

The Bargain Hunter's Opportunity

We are giving you the benefit of our settlement with the Railroad companies. This means a genuine saving of from one third to one half the ordinary price on a high grade Piano.

MONEY SAVED IS MONEY EARNED. This is your opportunity. Every Piano fully warranted and guaranteed.

MUSICAL CRITICS.

BETHLEHEM RECEPTION WAS A SUCCESS.

Los Angeles Youth and a Child Refugees Carry Off the Honors With Their Remarkable Work on Their Violins—Records Ruiz Praises Them.

DAWN W. Bartlett's reception Thursday night at Bethlehem Institution, for refugees from San Francisco, was a great success. The hall in the hotel was filled with people who have been the involuntary guests of the city, and together with a number of those who have been prominent in relief work, Mr. Bartlett presided, and as host of the occasion, spoke words of welcome to his guests and assured them that he and the city have received more than they gave in the opportunity of extending a helping hand to those in distress. Bethlehem has been the home for more than six hundred refugees during the past month, and many of them have become self-supporting and have determined upon making this city their permanent home.

Mrs. Jefferson D. Gibbs, president of the Woman's Parliament of Southern California, and who has been hostess of the women's information bureau in the Times Building, was present and was introduced to the audience. She spoke most graciously of the work of the city, was of little importance compared with the good that had come to those engaged in the work. Her bureau has performed a stupendous service in finding remunerative employment for about one thousand women and girls who were thrown out of employment and lost their all in the great conflagration, but in her remarks this modest lady studiously avoided making any reference whatever to the fact.

C. C. Desmond, of the General Relief Committee, spoke in kindliest words of the city, was of little importance compared with the good that had come to those engaged in the work. Her bureau has performed a stupendous service in finding remunerative employment for about one thousand women and girls who were thrown out of employment and lost their all in the great conflagration, but in her remarks this modest lady studiously avoided making any reference whatever to the fact.

EVERYBODY TO BE HEARD.

The result of an extended discussion was the extension of a general invitation to all cities and towns in the county to send delegates to meetings of the commission, and on the motion of Mr. Mitchell a special invitation was extended to San Pedro, Long Beach and Wilmington to send representatives to the meeting of June 15 for the purpose of considering all questions concerning San Pedro Harbor.

The commission received and accepted an invitation from the Municipal League to attend a concert at the next Thursday evening, when the consolidation scheme and the plans of the commission will be discussed publicly. A delegation of suburban antagonists appeared and presented arguments to induce the commission to give its official support to their movement. The expediency of pushing annexation propositions to a vote at this time was debated, and the matter was referred to a committee, with instructions to endeavor to arrange for a consultation with the Water Board and ascertain that body's views.

GEN. MCCOOK SERIOUSLY ILL.

CHICAGO, June 1.—Gen. Edward A. McCook, a veteran of the Civil War and one of the "Fighting McCooks," is seriously ill at his home in this city. Gen. McCook bore a prominent part in the fighting in the West and after the war was for a time Territorial Governor of Colorado.

selection in high soprano, her voice being clear and resonant. She is Belgian, with her husband, an Italian, and with their little daughter, have been prominent figures in the musical circles of San Francisco.

Another notable of this remarkable music circle is Mrs. Harwood, a well-known San Francisco pianist.

She appeared in a piano solo of pleasure of the audience.

All these musicians are destined to make Los Angeles their home, and their acquisition will be a distinct gain to the musical colony, and a most important step in the relief work.

There are two carpenter mechanics on the east side of Manhattan who make a specialty of constructing doors and secret exits for parties and gambling-houses. "Old Jack" Woods of the Bowery has been in line of work for twenty years, and only recognized rival, Sing Gow, is more of his building for the Chinese gambling dens.

The police, say, the New York Times, find themselves up against a proposition when they start to tear down doors built by "Old Jack."

These doors are used for ten to fifteen inches thick sheet iron and solid wood. This cunning Jack has added a inch thickness of solid rubber, when the police axes and sledgehammers strike the door they will find it as solid as a rock.

First time I struck one of the doors," said Detective McGee of the Tenderloin. "The force of my striking the sheet iron, wood and rubber drove me back five feet at least."

His kindly face turned to a grin as he said that they have money even hold back the police raiders for a few minutes. It gives time to destroy the sheet-iron and other dangerous devices. The sheet-iron and wood are stout enough to keep the sledge hammers at work for eight minutes, and the rubber door counted on to make a delay of ten to fifteen minutes.
